# THE FALLEN LEAGUE

**NEW VIEWS  
ON LEAGUE.**  
*Harding Visited by  
McCumber.*

**League Organizer Pleads to  
Have Service Man in the  
Next Cabinet.**

BY A. P. NIGHT WIRE.  
MARION, Dec. 28.—Conflicting  
views regarding an association of  
status was given President-elect  
today by former supporters  
of the League of Versailles.

Senator Porter J. McCumber of  
Iowa, who voted for un-  
conditional ratification of the Versailles  
treaty, advised the President-elect  
that he had agreed in his efforts  
to have an international peace so-

cial Straus of New York City,  
former Ambassador to Turkey and  
League worker in the treaty  
ratification, who had the United  
States still should accept the League  
in some form, and should launch  
it next move for world peace  
through that agency.

**REPRESENTS CONFIDENCE.**  
Both expressed confidence in Sen-  
ator Harding's policy of seeking to  
unite the country behind an inter-  
national program, but neither would  
express publicly an opinion regard-  
ing the President-elect's specific pro-  
posals for a world council as he  
outlined it to them.

Although he was the leading Re-  
publican supporter of the League  
throughout both ratification battles  
in the Senate, Senator McCumber  
regarded the covenant as definitely  
rejected as far as the United  
States was concerned, and thought  
of association of nations now could  
be built up independently of the  
League machinery.

He suggested that the greater powers be linked  
by a network of arbitrators, rather  
than the basis of the new society, and  
that a disarmament agreement  
might be consummated as the next  
step toward world peace.

As acting chairman of the Senate  
Foreign Relations Committee, Sen-  
ator McCumber also talked with the President-elect  
regarding taxation and tariff propo-  
sals. He held out little hope that the  
present session of Congress would  
do more than pass appropriation  
bills and a budget measure.

**ASK SERVICE MAN.**  
A plea for appointment of a for-  
mer service man to a Cabinet pos-  
ition was made to Senator Harding  
by John J. Maher, of Lincoln, Neb.,  
one of the organizers of the Ameri-  
can Legion, who also discussed the  
President-elect's proposed "bonus  
proposition" with him. Senator  
McCumber will be the only candidate.  
The bill will start at noon with con-  
sideration of the Foreign Relations  
committee report, when the thirty-second  
Congress will be conferred. President  
Harding and McCumber were members  
of the Columbus lodge.

**TO VISIT MARION.**  
BY A. P. NIGHT WIRE.  
WASHINGTON, Dec. 28.—Represen-  
tative Mondell of Wyoming, Re-  
publican House leader, will leave to-  
morrow for Marion, O., where  
President-elect Harding at Mr.  
Mondell's request, Mr. Mondell said  
probably would discuss matters  
before Congress and plans for  
the session to be called after  
Jan. 3.

**Ask California to  
Extend Law.**  
*Prohibition of Land Holding  
to All Aliens Agreeable  
to Japanese.*

**Sentiment in State Believed  
to be for the New  
Proposition.**

BY ARTHUR SEARS KENNING.  
WASHINGTON, Dec. 28.—A  
movement of influential sponsorship  
of the Third International  
of the Immigration and land own-  
ership controversy with Japan on  
this basis:

(1.) Extension by California of  
its recently enacted land holding  
law so as to prohibit the acquire-  
ment of title to real estate by all  
aliens instead of aliens ineligible to  
citizenship.

(2.) A revised "gentlemen's  
agreement" under which Japan  
would prevent the emigration to  
continental United States and the  
Hawaii Islands of all Japanese.  
If this proposition meets with a  
favorable reception in California,  
the Legislature of that State at its  
forthcoming session will be asked  
to amend the act, adopted by  
initiative at the November elec-  
tion, so as to apply the land-hold-  
ing prohibition to all aliens.

The Japanese government has  
been sounded and has indicated that  
it will be willing to settle the con-  
troversy on the basis proposed.

Such a settlement would repre-  
sent a concession to all aliens.  
The Japanese government has  
been sounded and has indicated that  
it will be willing to settle the con-  
troversy on the basis proposed.

From the beginning of the land  
ownership row, in 1913, Japan has  
contended that the California law  
was a violation of the treaty.  
Inasmuch as the State prohibited  
land holding, not by all aliens, but  
by those of Japanese race, Japan  
contended that the law was a viola-  
tion of the treaty.

Under the American law only a natural-  
ized person is eligible to naturalization.  
Tokio indicated that ground for ob-  
jection would be the prohibition  
applied to all aliens as it does  
in the land-holding laws of  
Illinois, Washington, the District of  
Columbia, Australia and New Zea-  
land.

California, however, was unwill-  
ing in 1913 and has continued un-  
willing to prohibit all aliens from  
the most active of the anti-Jap-  
anese leaders in California have  
come out for the exclusion of all  
aliens of Japanese race.

It was as a result of this change  
of attitude that the members of the  
California delegation in Congress  
met a few days ago and discussed  
the proposal for action by the State  
Legislature expanding the land-hold-  
ing prohibition to apply to all for-  
eigners. In this conference the ar-  
gument was made that California no  
longer is dependent upon foreign cap-  
ital for development, that the phre-  
nomenal growth of the State in pop-  
ulation in the last decade and the in-  
flux of wealthy easterners give ample  
assurance that there will be no  
dearth of American capital seeking  
investment in the development of  
California's natural resources.

**TO APPROACH STEPHENS.**  
There will be another meeting of  
the delegation tomorrow for further  
discussion of the project for an am-  
plification of the land-holding law.  
If the proposed concession finds favor  
with the delegation it will address  
Gov. Stephens a recommendation of  
amendment of the land law by the  
Legislature. The attitude of the Gov-  
ernor and members of the Legisla-  
ture is not known here but those be-

mittee of the Third Internationale,  
whose passport, it is alleged, the  
French refused to give, came sud-  
denly into the hall where the

The doors of the hall were locked

denouncing the "Scheldemanns."  
She also denounced the moderates

# State Supervisor for Oil and Gas Resigns Position.

BY A. P. NIGHT WIRE.  
SAN FRANCISCO, Dec. 28.—R. P.  
McLaughlin announced today his  
resignation as state oil and gas su-  
pervisor. He will leave his post to-  
morrow, to take effect January 1.  
He has held the position five and one-  
half years. He will enter private  
engineering practice here.

# GAS AS SUPREME WEAPON.

**English Embargo on Dyes Taken as Rec-  
ognition of Its War Importance.**

WASHINGTON, Dec. 28.—By the passage of the dyestuffs import  
regulations act Great Britain has definitely accepted the theory that po-  
ison will be the supreme weapon of the next war and at the same time has  
opened the way for the entry of German dyes into this country, according  
to the views expressed tonight by chemical experts of the government.

Of late, however, a change of view  
on this question has been noted. Some  
of the most active of the anti-Jap-  
anese leaders in California have  
come out for the exclusion of all  
aliens of Japanese race.

It was as a result of this change  
of attitude that the members of the

# CYCLONE WREAKS HAVOC IN SPAIN; CROPS DESTROYED.

OVIEDO (Spain) Dec. 28.—A cyclone has caused enormous  
damage in the province of Oviedo. Forty houses were destroyed in  
the hamlet of Sama de Langreo and buildings in mining settlements  
of that region were unroofed. The potato, maize and chestnut crops  
are said to be destroyed.

HILO (T. H.) Dec. 28.—Two lava streams, each a quarter  
of a mile wide, are flowing from Kilauwa volcano after several weeks  
of steady rise of the lava pit, reports from the volcano observatory  
said today.

The overflow is through a crack made by eruptions of 1888,  
about 500 feet above the main pit where lava fountains have been  
playing spectacularly for weeks.

IRONWOOD (Mich.) Dec. 28.—According to reports received tonight,  
Hurley is laughing over the raid today by Federal prohibition enforcement  
agents. Five minutes after forty-eight Federal agents with fifty-seven  
prisoners left for Ashland, Wis., moonshine liquor was sold in Hurley. To-  
night it was said anyone who knew the ropes could buy liquor by the

# PEACE MEETS OF REDS AND POLES GO ON.

**Rumor of Conflict Set Aside  
as Negotiations Are Re-  
sumed at Riga.**

BY CARL AND ASSOCIATED PRESS.  
RIGA, Dec. 28.—The peace ne-  
gotiations between the Poles and the  
Russians were interrupted for three  
days at the Christmas only. The  
commissioners resumed work yester-  
day and all rumors that the negotia-  
tions had been interrupted on ac-  
count of conflict between the com-  
missioners' representatives, un-  
founded.

No trouble was reported in the  
peace conference, which it is  
believed will finish its work, as both  
sides are interested in reaching an  
agreement during the winter.

Reports received here are that the  
foreign press in the capital, but  
nothing was found in the saloon, but  
in the residence of the proprietor a  
bathtub was found in the bath-  
room. In another place a large  
quantity of bonded whisky was  
found. The raids were conducted  
peacefully, not a shot being fired  
and no resistance was offered al-  
though firearms were found on several of  
the persons taken and in some of the  
places raided.

**LODGED IN JAIL.**  
ASHLAND (Wis.) Dec. 28.—Fifty-  
seven men arrested in the raids today  
by prohibition enforcement agents at  
Jail here tonight. They have been  
arrested before United States Com-  
missioner W. A. Rorer tomorrow.  
Commissioner Rorer said tonight  
that upon arrival of United States  
Marshal "Pug" Francis tomorrow  
morning, warrants will be issued  
against the fifty-seven men, many  
charges of illegal selling of in-  
toxicating liquor in possession and  
still others with both selling and hav-  
ing liquor in possession.

ABBAZIA, Dec. 28.—The taking of Fiume from the poet-commander has all  
the accompaniments of war with this exception—that if life can be spared it will  
be. Bombardments by the artillery and battleships, machine guns and bombs,  
with intermittent rifle firing, continued throughout the day.

The regulars are well within the city, occupying half of it, while D'Annunzio's  
forces, ambushed in the houses, resist with determination in the ever-decreasing  
semicircle which has as its base the sea. The regulars display perfect discipline.

far so much decision has been made and that any suggestions he may have  
dropped on the subject have been of a tentative and tentative nature.

# SEAPLANES "TAKE OFF" TOMORROW

**Mexico Gives Navy Permission  
to Use Bases on San  
Diego-Panama Flight.**

EXCLUSIVE DISPATCH.  
SAN DIEGO, Dec. 28.—Navy of-  
ficers today expressed satisfaction  
over the progress of arrangements  
for the spectacular San Diego-  
Panama seaplane flight which has  
been definitely set for Thursday  
morning at 10 o'clock. The last  
obstacle has been removed with the  
receipt of permission from Mexico  
for certain Western Mexico ports to  
be used for fuel and supply bases.  
One fuel tender will be sent to  
San Bartolome and another to  
San Blas. The seaplanes will start  
along the coast from San Blas. The  
auxiliary crafts attached to the  
force will patrol areas assigned  
them along the line of flight, and  
every precaution will be taken to  
prevent loss of life in the venture.

Officers and men numbering sev-  
enty or more, detailed to the flight,  
are eager to start without further  
delay as the winter season on the  
southern coast is approaching and  
bad weather would greatly increase  
the chances of disaster.

The fourteen seaplanes designated  
as the Panama squadron and the  
twelve coastal type planes will "take  
off" here within a few minutes of  
each other on Thursday morning.  
The seaplanes will be in formation  
and maneuver to battle formation and  
set off together on the long trip  
to San Bartolome, Magdalena and Ac-  
apulco and Salina Cruz probably will  
be used as fuel and supply bases  
along the line of flight. The seaplanes  
will be aided by the flyers by a  
system of smoke signaling by day and  
searchlights at night, as the planes  
pass above each area where they  
are stationed.

This flight is declared by all ex-  
perts to be a supreme test of the  
efficiency of American naval flying  
and is a daring undertaking, with  
high chance of danger to men and  
craft and of great monetary ex-  
pense.

# UNCLE JOE SETS RECORD.

**Has Been in the House Forty-four Years;  
Hopes to Rival Gladstone.**

WASHINGTON, Dec. 28.—"Uncle Joe" Cannon, war horse of the  
House of Representatives, today established a new American record.  
With the close of a dull House session he passed the mark for length of  
service set by Justin Smith Morrill of Vermont, who as Senator and Rep-  
resentative served forty-three years, nine months and twenty-four days.  
The former Speaker will begin tomorrow adding new time to his own  
record, with the hope of reaching the ripe old age of 100 and beating Glad-  
stone's record of fifty-three years in the British House of Commons.

"Uncle Joe's" achievement will  
be celebrated in the House tomor-  
row, with Champ Clark, himself a  
veteran, who retires March 4, lead-  
ing the speaking ceremonies. Mr.  
Cannon also will speak, and many of  
the older members will ask time for  
a few remarks.  
Walking about corridors of the  
Capitol today chewing his long black  
cigar, Mr. Cannon told a friend there  
was no use offering a little advice  
to younger Representatives, because  
some one else was always thinking  
up smart things and attributing  
them to him. The remark, chuckled  
Mr. Cannon, that spurs were put  
into the heels of army officers to keep  
their feet from slipping off the desk.  
He was never uttered by him.  
Counting a victory in the recent  
landslide, Mr. Cannon has been  
elected to Congress twenty-three  
times. He is now ending the forty-  
fourth year of service. First elected  
in 1872 he has just kept coming to  
the House with the exception of  
captain of two bad November when  
his people failed to return him.

# Bay City Gang Trial is Halted by One Mouse.

BY A. P. NIGHT WIRE.  
SAN FRANCISCO, Dec. 28.—The  
trial of James Carey, third of a  
group of suspected criminal gang-  
sters to face a jury for assaults on  
girls here, proceeded today with but  
one incident to break its monotony.  
That was supplied by a mouse,  
which appeared under the judge's  
desk while Miss Jessie Montgomery,  
the complaining witness, was tes-  
tifying. Fighting the tiny creature  
Miss Montgomery abruptly stopped  
answering questions and hastily left  
the stand. A mouse was taken un-  
til the mouse could be captured.

The session closed with the tes-  
timony of Miss Jean Stanley, com-  
panion of Miss Jessie Montgomery,  
on the night she was attacked, and two  
police officers who arrested two of the  
alleged gangsters in the small house  
where the attack took place. It

# HIGH HEELS AID TO RACE SUICIDE.

Washington, Octopaholic Pro-

BY A. P. NIGHT WIRE.  
TACOMA, Dec. 28.—A State  
law prohibiting the sale and  
wearing of shoes with heels  
more than an inch and a half  
high will be asked from the  
coming State Legislature, the  
State Octopaholic Association  
announced here today. Women  
climbing and other civic bod-  
ies will be urged to join in  
urging the measure.

It passed, the bill would not  
become effective for five years  
to permit merchants to clean  
up present stocks.

The wearing of high heels  
is so immoral as the excessive  
consumption of alcohol, the  
association's statement says.  
"Race suicide is distinctly  
aided by high heels. All  
women who wear high heels  
become deformed in the feet,  
and back and they are pre-  
disposed to infirmities."

# ECONOMY WAVE PROPOSE JAP COMPROMISE

Harding Administration to Cut Expenditures.

Many Big Projects Must Await Better Times.

May Delay Submarine Base at Los Angeles Harbor.

BY ROBERT B. ARMSTRONG. (Exclusive Interview.)

WASHINGTON, Dec. 28.—The Los Angeles submarine base, together with all the other Pacific Coast naval projects, may be delayed months, or even years, by the tidal wave of economy ordered by President-elect Harding and his advisers in all branches of government activity.

Not only may the Los Angeles Harbor improvement have to wait for more successful economic conditions, but the great reclamation projects, including the taming of the Colorado River and the putting of that mighty river to work, may have to wait until the economy has strengthened the Treasury to the extent that these undertakings may be possible.

CUT TO THE BONE.

The tangible evidence that there is to be a tidal wave of economy in the way of naval bases is hard to see, but everywhere there is the word "cut to the bone." You hear it in the Senate and in the House and in every committee and all of the executive departments where they discuss estimates.

Most of the California projects, even the big appropriations for any kind of work, are being cut. Congressman Osborne when asked tonight about the Los Angeles submarine base, said: "I am hopeful, but I will not be surprised if the project has to wait for a while until the government has gotten on a sounder basis, due to economy and pruning of expenditures. But I am doing all I can to get the submarine base under way as speedily as possible."

One of the tidals in the plan to get the big appropriations in the extension of time given the joint naval commission which recently visited Los Angeles in which he made its report. Originally it was scheduled to make its report to both the Senate and the House before the end of this year, but has now been given until January 15 to report.

There has been no meeting of the commission since the return to Washington and the members are reticent to a greater degree than usual in matters of the kind. The assumption is that another extension of time will be asked to carry this project over into the next administration on at least until all of the appropriations bills for the next fiscal year are completed.

DOOMED TO POSTPONEMENT.

As the matter stands now there will be no action of an affirmative character in the near future unless there is a stimulus by pressure from the communities on the Coast. The same thing is true of any new large reclamation projects and any plan that contemplates spending money to curb and abate the Colorado River into a safe and serviceable stream is doomed to postponement.

None of the western men most interested in reclamation can see much hope for immediate action in this session and look for the influence of the new administration to be a large appropriation for new projects.

One notable exception will be the fortification of the Panama Canal in accordance with the wishes of President-elect Harding following a personal inspection of the great connecting waterway between the Atlantic and Pacific.

ALL CANTILEVER SHOES AND OXFORDS REDUCED. HIGH HEELS, TOO, IN THE CANTILEVER SHOE.

Some women make a mistake by changing too abruptly from high heels to low. The sudden transition often strains nerve and muscle cords, and causes great pain.

Cantilever Shoes are made with modern, scientific, high heels, as well as low heels.

The flexible shank and the glove-like hug over and about the instep relieve foot troubles that have been caused by high French heels.

May we let the shoe show you just what we mean?

# DE VALERA STILL MISSING. President and Family Observe 64th Birthday.

Disappearance of "Irish President" is Causing Embarrassment.

(BY A. P. NIGHT WIRE.)

NEW YORK, Dec. 28.—Eamon de Valera, "president of the Irish republic," has caused his secretary considerable embarrassment by failing to come out in person today. Today the secretary said he had not seen Mr. De Valera since his return here from Worcester, Mass. He had previously announced he expected to confer with the "president" here.

"I cannot give you any tip at all," he replied, "to which side of the Atlantic the Irish president might be expected to reappear."

Mrs. MacSwiney, widow of the late Lord Mayor of Cork, who started himself to death in an English prison, will sail for home next Saturday. She testified in Washington before the committee of 100 investigating the famine in Ireland.

GOVERNMENT SCORED.

LONDON, Dec. 28.—The labor commission that recently investigated the affairs in Ireland, it became known today, in its final report declared that "it is being done in the name of Great Britain which must make her name stink in the nostrils of the whole world. The honor of our name has been greatly compromised."

The commission charges the crown forces, armed forces, with burning, destruction, looting and fogging. Regarding the government's responsibility for the deaths of the Irish, it says: "We do not believe the government directly or indirectly inspired, repaid and violence, but while it has perpetuated certain occurrences which are beyond doubt, it has associated itself with, and defended, crimes committed by the crown forces in Ireland. Blame for the present situation does not rest primarily with the members of the crown forces, but with the government."

MANY POINTS MADE.

Among the points made by the commission's report are the following: "There are so many undoubted cases of looting and theft that the commission must add these crimes to those of burning and destruction. The service of the British crown, in the form of punishment, came to our notice, some of which we have been able to investigate."

"In some places there has been a good deal of looting of the people. Looting and brutal treatment of women is by no means the worst that has been charged against men in the service of the British crown. "Final solution of the Irish problem will not be found in a policy of violence and vengeance. It will have to be found along the lines of conciliation and consent by a more enlightened method of negotiation."

COUNTRESS SENTENCED.

NEW YORK, Dec. 28.—Countess Georgina Markievicz, who was tried by a court martial on a charge of treason in connection with the Irish revolution, was today sentenced to two years at hard labor in prison.

The specific allegations against her were that between January, 1918, and September, 1920, she had conspired to organize an "Irish Republican Army" or Sinn Fein "Boy Scouts" society. This organization has been charged with the murder of British military police and with unlawful drilling.

Masked Men Rob Passengers.

KANKAKEE (Ill.) Dec. 28.—Two masked men boarded a through Illinois Central train at Kankakee and robbed a number of sleeping car passengers before the train arrived here.

TO BRING ETHERIDGE BACK. Portland Deputies Leave for Minneapolis; Creditors Number Thousands.

(BY A. P. DAY WIRE.)

PORTLAND (Or.) Dec. 28.—Two deputy sheriffs left today for Minneapolis to bring back John L. Etheridge, former president of the bond house of Morris Bros., Inc., who was arrested yesterday in connection with his operations in Edmondton.

Deportation of Russ Radicals is Again Taken Up.

(BY A. P. DAY WIRE.)

WASHINGTON, Dec. 28.—Deportation of Russian radicals has been resumed. It was said today at the Department of Labor, a number of Russians were started home last week and another batch of twenty-five will leave New York in about three weeks. The radicals are sent to Libya and moved there by rail into Soviet Russia.

Many of the radicals are said to be in the hands of the Russian government, and only about one-third of them are being deported. The government, the expenses of his deportation will be paid by the United States. There are 100 Russian radicals awaiting deportation at New York and elsewhere.

MAY TAKE THE KICK

ANYWAY MUSIC TEACHERS TO TRY FOR SHIMMYLESS SHIMMY, ETC.

(EXCLUSIVE DISPATCH.)

CHICAGO, Dec. 28.—Will they take the kick out of jazz? The shake out of shimmy? The shake out of shimmy?

It's a cinch they will if they can. But they cannot, for the Music Teachers' National Association, which meets tomorrow at the Hotel La Salle, have their way.

And "they" according to gossip around the hotel today during the advance meeting of the State presidents' association, are a small group of music reformers largely from the northern States, but representing the minority in all sections of the country.

While none of the reformers have as yet put in their appearance, advance reports state they are determined to do to certain brands of popular music exactly what was done to certain well-known brands of beer—denaturalize it.

Now the big question is, how far will they get?

GEDDES' SON SAILS.

NEW YORK, Dec. 28.—Egon Geddes, 13-year-old son of Sir Auckland Geddes, British Ambassador to the United States, sailed today for Germany for England to enter Rugby. He was accompanied by Capt. Clarence Henry, his father's secretary.

# G.O.P. FACES A KEEN CONTEST

Fight Develops Over National Committeeman.

Arizona Senator Willing to Take Job, Report.

Phoenix Man Drawing Strong Support for Place.

(EXCLUSIVE DISPATCH.)

PHOENIX (APR.) Dec. 28.—An unusual political situation is evolving in Arizona, in connection with the filling of the place of the late Allan B. Janssen, as National Republican Committeeman. Ralph H. Cameron, Republican Senator-elect, nominated J. Lorenzo Hubbell, a pioneer Arizona Republican. Hubbell is understood to have declined the nomination, as his health is failing.

The Republican State Committee headquarters nominated Andrew J. Bauser, Jr., of Phoenix, as Janssen's successor. Bauser himself would be pleased to be named for the place.

Bauser pledges and promises will assure his selection unless there be a switching of votes, it is believed. Cameron, state candidate in four years ago, at a Tucson meeting, for selection as national committeeman and was defeated by the same interests that now are opposing him.

WOMEN TO BUILD.

Four colored women's clubs have just filed articles of incorporation for the Phoenix Federation of Colored Women's Clubs. For the purpose of constructing a clubhouse. This structure is designed not only to house the clubs, but also to serve as a Y.M.C.A. for the boys and Y.W.C.A. for the girls.

CINEMA ENTERPRISE.

GLOBE (APR.) Dec. 28.—Globe has a cinema enterprise of her very own, the Apache Trail Film Company, located at 1000 N. 10th St., Los Angeles. F. A. Woodard, a State Senator, is president and H. V. Smith, secretary-treasurer. One of the car's four negro passengers, and then killed himself.

HURRY WORK ON DAM.

ST. JOHNS (ARIZ.) Dec. 28.—The Lyman dam, above St. Johns, is being pushed by day and night shifts, to insure its completion before spring time floods. About 90 percent of the rock is in place. The contractors expect to turn over the completed structure by April 1.

WOMAN COUSIN OF CZAR ESCAPES REDS.

WAS CAPTURED WHILE WORKING FOR REDS IN SOUTH RUSSIA.

(BY GALE AND ASSOCIATED PRESS.)

KIRGIZ, Dec. 28.—Miss Irene Kirgiz, an interpreter for the American Red Cross, who was captured by the Bolsheviks with Capt. Emmet Kilpatrick of Uniontown, Pa., at Novo Alexievka, October 28, when a detachment of Bolsheviks cavalry swept down the west coast of the Sea of Azov and surrounded the town, has arrived in London after escaping from her captors, says a dispatch received by Red Cross headquarters here today.

Miss Kirgiz is a daughter of Prince Kirgiz, head of the Russian Red Cross, and a cousin of the late Emperor.

# COPPER DIVIDEND PASSED

Anaconda Company Takes No Action Account of Prevailing Market.

(BY A. P. NIGHT WIRE.)

NEW YORK, Dec. 28.—The Anaconda Copper Mining Company passed the dollar quarterly dividend it has been paying since the directors of the company, after their meeting, issued a statement that they said that "on account of prevailing conditions in the market no action will be taken on dividends."

Blizzard Sweeps Over St. John's, Isolating Island.

(BY A. P. NIGHT WIRE.)

ST. JOHN'S (N. F.) Dec. 28.—A blizzard swept over this island colony today, and left confusion among communication mediums in its wake. Damage was not extensive, but all shipping was held to ports.

Train and automobile service was disrupted, and roads made impassable. The storm was the first of the winter. Weather authorities predicted it would not blow itself out for several days.

The seas kicked up by the gale were so great that a section of the narrow gauge track of the Newfoundland Railway at Conception Bay was washed away. Express trains running through the bleak interior fell far behind their schedules, and rotary snowplows were sent out.

NEGRO MURDERER ALSO IS SUICIDE.

(BY A. P. DAY WIRE.)

NEW YORK, Dec. 28.—Raymond Ames, a negro, early today leaped onto the running board of an automobile, shot to death Lucia Harper, one of the car's four negro passengers, and then killed himself.

Police are searching for Charles Brown, chauffeur of the automobile, which they said bore the license number of the late Elmer Sumner Burch.

**DIVIDEND PASSED.**  
Company Takes No Action on  
out of Prevailing Market.

[BY A. P. NIGHT WIRE]  
Dec. 28.—The Anacostia Copper Mining Company today  
dividend it has been paying since May 30, 1919.  
pany, after their meeting, issued a statement in which  
amount of prevailing conditions in the metal market  
then on dividends.

"A lack of demand for export  
low market prices and a reduced  
output due to curtailed operations  
resulting in increased cost of produc-  
tion are factors which combined  
have decreased the selling power  
of the company during the year  
just closing," the statement added.  
The company's net profit for  
1920 as estimated by the directors  
were \$1,581,120 and its surplus \$4-  
\$74,417. These figures make altera-  
tions for all claims, including taxes,  
interest charges and depreciation of  
bond holdings. Dividends paid in  
1920, amounted to \$6,993,794.

## UNITED STATES IS UNYIELDING.

Suggestion of Reprisal from  
Russia is Seen.

Foreigners Turned Back Who  
Seek to Leave.

Statement of French Ambassa-  
dor Printed.

[EXCLUSIVE DISPATCH]  
WASHINGTON, Dec. 28.—A sug-  
gestion of retaliation on the part  
of the soviet government of Russia  
for the deportation of Ludwig C. K.  
Martens by the United States was  
seen here today in reports to the  
State Department from Baltic  
sources that a number of American  
citizens were included among for-  
eigners, who had arrived at Riga  
on their way out of Russia, and had  
been turned back to Petrograd.

The Americans and other foreign-  
ers were refused permission to cross  
the border, the Department of State  
was informed. The fact that all  
those seeking to leave Russia were  
not Americans leads the State De-  
partment to believe that this na-  
tion's decision to deport Martens  
had nothing to do with the action of  
the soviet in turning the Ameri-  
cans back.

Asked what the United States  
could do in the matter, an official  
said he did not know what could  
be done unless it would be to send  
in a military force sufficient to  
bring out Americans who wish to  
come from soviet Russia. This he  
thought very unlikely.

ATTITUDE UNYIELDING.  
That the attitude of the present  
administration toward the soviet  
government is unyielding was em-  
phasized today with the receipt  
through diplomatic channels of an  
account printed in a Russian news-  
paper in Paris of conversations re-  
cently held between Ambassador Jus-  
serand of France and Secretary of  
State Coby on the subject. This  
account quoted Ambassador Jus-  
serand as representing to France  
that the United States had emphati-  
cally reiterated its determination  
not to recognize the soviet govern-  
ment.

An dispatch to a diplomatic  
quarter here, the statement printed  
in Paris said:  
"The latest events in south of  
Russia, the expected signing of the  
Anglo-Bolshevik commercial treaty,  
and finally the news about the Van-  
derlip concession in Siberia, have  
moved the French government to  
approach the government of the  
United States with the request to  
formulate the American point of  
view on the possibility of entering  
into official commercial relations  
with the Russian soviet government  
and eventual recognition of that  
government."

JUSSERAND STATEMENT.  
A detailed communication from  
the French Ambassador in Washing-  
ton, M. Jusserand, giving a full  
account of his conversations with the  
Secretary of State, has just reached  
Paris. In the course of the con-  
versations Mr. Coby declared that  
the American government had re-  
fused once and for all to recognize  
the soviet government. It is based  
on mere force and does not repre-  
sent the majority of the people. In  
case some private American citizens  
consider it desirable to enter into  
relations with the soviet authorities  
and conclude agreements with them,  
the American government will not  
give them any help or assistance.

The recent military advances of the  
Bolsheviks in Southern Russia could  
not have any influence whatever on  
the position of American as regards  
the Russian problem. The United  
States did not recognize the govern-  
ment of Gen. Wrangel because they  
were not convinced that the Russian  
people were behind that government.  
But at the same time all the in-  
formation available from Russia  
showed with evidence that the Bol-  
sheviks are supported only by an in-  
significant minority of the people.

Therefore, America cannot recog-  
nize the government of Gen. Wrangel  
ready to help Russia by all possible  
means in the process of her recon-  
struction, but she can enter into of-  
ficial relations with a Russian gov-  
ernment only when the Russian peo-  
ple shall have had an opportunity  
of expressing freely their will in  
choosing a government.

BANK MUST PAY FOR  
LOSSES IN ROBBERY.  
THIEVES BURNED WAY INTO  
VAULT WITH OXIDE-ACET-  
YLENE TORCHES.

[BY A. P. NIGHT WIRE]  
MARTINEZ, Dec. 28.—The Bank  
of Byron must pay Charles S. Web-  
ber, \$12,500 for losses incurred by  
fifteen depositors whose deposit  
boxes were robbed January 24, last,  
by thieves who burned their way in-  
to the vault, according to the verdict  
of a jury in Superior Court here to-  
day.

Judge A. E. McKenzie and attor-  
neys in the case said the verdict set  
a precedent in American juris-  
prudence, it being the first time such  
an action had been filed.  
Attorneys for the bank did not  
contest the amount of money and  
valuables claimed to have been stol-  
en from the vault. They laid their  
case on the theory that the mode of  
entering the vault by oxide-acetylene  
torches was the first on record and  
that the bank could not be expected  
to keep ahead of the ingenuity of  
thieves and build defenses against a  
crime mode it did not know existed.  
The bank attorneys filed notice of  
appeal and said the case would be  
taken to the United States Supreme  
Court if necessary.

Webber sued on assignments made  
to him by the fifteen depositors. It  
was said ninety-seven other deposi-  
tors were awaiting outcome of his  
suit to file similar claims on their  
own account.

## WASHINGTON NEWS IN BRIEF.

[EXCLUSIVE DISPATCH]  
WASHINGTON, Dec. 28.—A compromise of the land-holding  
and immigration treaty with Japan has been proposed by influ-  
ential Californians on the basis of California extending the prohibition  
of land ownership to all aliens and Japan agreeing to prevent the  
emigration of all Japanese to America.

Conferences here today between Harry Daugherty and a group  
of Senate irreconcilables have comforted the latter by leaving them  
fairly convinced that President-elect Harding will not try to force  
ratification of the Versailles Treaty, even with broad reservations,  
and have made it clear to the former that the opposition of the bil-  
ter-enders to the treaty has not collapsed.

Refusal of the soviet authorities to permit Americans to cross  
the Russian border is regarded here as a possible retaliation for the  
deportation of Martens, their representative, from the United  
States.

British military activities in Mesopotamia are believed to fore-  
shadow an armed movement against the Bolshevik advance in the  
Caucasus.

A constitutional amendment making it possible for Congress  
to tax State, county and municipal bonds was offered in the House  
by Representative McFadden of Pennsylvania, chairman of the  
Committee on Banking and Currency.

Production and importation of petroleum broke all records in  
November, with the result that there was an increase of more than  
3,000,000 barrels in reserve stocks. Consumption was slightly less  
than in October.

The first of the important annual appropriation bills will be  
reported to the House from the Appropriations Committee tomorrow.

in Tucson of a battery of field ar-  
tillery, the second in the State, the  
first being in Flagstaff. Three bat-  
teries are specified in the new or-  
ders as Arizona's artillery quota.  
The third battery is to go to either  
Nogales or Mesa. Tucson already  
has a spacious armory in which to  
house the organization.

OPERATORS TO EVICT  
STRIKING MINERS.  
OWNERS IN KENTUCKY FIELDS  
TELL MEN TO GO TO WORK  
OR GET OUT.

[BY A. P. NIGHT WIRE]  
WILLIAMSON (W. Va.) Dec. 28.  
Twenty-seven eviction cases have  
been decided by the Circuit Court at  
Pikeville, Pike county, Kentucky, in  
favor of F. A. Lindsay, general su-  
perintendent of Auburn Coal Cor-  
poration at McCarr, Ky., according  
to information received here today  
by the Williamson Coal Operators'  
Association. Pike county is in the  
Tug River coal field, where a strike  
has been in progress since July 1.  
Supt. Lindsay, officers of the as-  
sociation here said, notified the  
miners today that they would be  
evicted January 18. Work at the  
Auburn mine, which has been idle  
since the strike was called, is avail-  
able for the miners, he said, and  
the alternative is either eviction or em-  
ployment.

MISSING AMERICANS  
ARE SAFE IN TURKEY.

[BY A. P. NIGHT WIRE]  
NEW YORK, Dec. 28.—Seven  
American relief workers, who have  
been cut off from outside communi-  
cation in Urfa, Asiatic Turkey, since  
August 19, were reported safe and  
awaiting opportunity to leave in  
dispatches received today by the Near  
East Relief.

Owing to restrictions imposed by  
Mustapha Kemal Pasha on the  
movements of relief workers in ter-  
ritory held by Turkish Nationalists,  
the Near East Relief announced that  
the departure of the personnel in  
Urfa probably will be delayed for  
some time.

A Very Unusual Opportunity to Save  
On Needed Office Equipment

From now until Friday night you can buy certain lines of office equipment,  
desks, chairs, filing cabinets, etc., right off the floor of our show rooms at

Very Great Price Reductions

This is the first time in our history we have ever  
resorted to the "Special Sale" method, and in so  
far as we know now it will be the last time.

But we believe the issue warrants the action.  
Friday, this week, is our last day at this location.  
On Monday, January 3rd, we open under the  
name Pacific Desk Co. in our magnificent new  
7-story home at 420 South Spring St. We  
propose to open up over there with absolutely  
new floor samples.

And so, to close out our present floor samples  
in the few remaining days before we move, we  
have felt justified in resorting to Heroic methods.  
In addition to floor samples we have certain lines  
of desks, and chairs and filing cabinets which we  
are not going to handle in our new home and we  
have included these in the Big Special Price  
Reduction.

You men who anticipate the need of office  
equipment the first of the year, or in the near  
future, will certainly do well to take advantage  
of this opportunity, for let us assure you

The Savings are Very Important

The price reductions hold good until Friday night only. There will be no exception to this restriction.

### One of the Most Beautiful Houses in Los Angeles

This new Spanish type residence is located on a quarter acre lot, close to the new WILSHIRE COUNTRY CLUB. It was built by a local physician for his own home but for personal reasons, he is unable to occupy it. NO EXPENSE was spared either in the construction or architectural features to make it one of the most delightful residences in this "CITY OF BEAUTIFUL HOMES." We are instructed to sell at a price much less than it would cost to duplicate today. Shown by appointment only.

### Beautiful Foothill Home

Comprising Six Acres

This delightful home is nestled in the foothills in the most exclusive residential section of Hollywood, surrounded by some of the finest home places in Southern California. In fact, it is the only fine home in this section comprising this much land that is for sale. This charming home is set in a veritable park, beautifully landscaped; the trees and shrubs are of mature size; there are over fifty bearing avocado trees. Of modified Spanish architecture, designed by one of our leading architects, built of the finest materials. The arrangement and detail of this attractive home is unsurpassed. Containing 9 rooms and 4 baths, 2 sleeping porches, 3 servants' rooms. This place was recently completed for a home, but the owners are compelled to reside in the East. All furniture, furnishings and hangings, specially designed, are included. A wonderful elevation with a commanding view of ocean and surrounding country. It is impossible to fully describe the property, but if interested call Mr. Laack.

### JUSTICE DENIES KILLING FRIEND.

Cleveland Judge Takes Stand in His Own Behalf.

Assails Testimony of Prosecution Main Witness.

Negro to Die in Chair for Murdering Sheriff.

(BY A. P. MONT WIRE.)  
CLEVELAND (O.) Dec. 28.—Judge William H. McGannon of the municipal court, charged with second-degree murder of Harold C. Kasy, took the stand in his own behalf today and denied all of the accusations made against him. He was the last witness for the defense.

The State announced its case closed, but reserved the right to call in rebuttal James P. McCaffery, who testified he was driving Miss Mary E. Neely, chief witness for the State, around the city in an automobile at the time of the shooting. Miss Neely testified several days ago she stood at Oregon avenue and East Ninth street and "saw" McGannon take something from his pocket. Simultaneously, a shot was fired and Kasy lurched forward.

ASSAILS GIRL'S TALE.  
McGannon assailed Miss Neely's story almost to the last word. When asked by W. H. Boyd, chief counsel for the defense, if he had killed Kasy, Judge McGannon's voice shook with emotion as he answered:

"No, sir, of course, I did not."

Judge McGannon was cross-examined by Prosecutor Baskin for one hour and fifteen minutes, but failed to change his story on any material point.

Judge McGannon testified that Miss Neely had proposed to him that she take the blame for the shooting and that he had declined. He also contradicted Miss Neely's testimony that he had offered her \$500 to change her story as given to Prosecutor Baskin and the grand jury.

Judge McGannon also denied having met Miss Neely many times, as she testified.

NEURO TO DIE.  
MADISONVILLE (Ky.) Dec. 28.—Lee Ellison, a negro, was found guilty of murdering Sheriff R. Scott Hunter of Hopkins county on November 15, last, and sentenced to death in the electric chair on January 31. The Ellison trial opened this morning and the verdict was returned late this afternoon.

The negro was brought here yesterday under guard of Co. A, Kentucky National Guard, of Louisville.

BROLASKI IN MEXICO.  
SAN FRANCISCO, Dec. 28.—Petition for a court order directing the return to San Francisco of Harry Brolaski, recently convicted here of violating Federal prohibition statutes, will be made of the United States District Court today by Asst. U. S. Dist. Atty. Robert McMillan. It was announced.

It was announced that Brolaski, who had been charged with the murder of a woman in Tijuana, yesterday, without obtaining proper permission to leave the court's jurisdiction.

U. S. Dist. Atty. Frank M. Silva, from his home at Napa, Cal., today directed McMillan to ask for the court order directing that Brolaski be returned. He also asked his deputy to learn the status of Brolaski's bonds as, according to Silva, it was specified in the bonds that he should not leave the court's jurisdiction while at liberty.

Brolaski was said to be in San Diego today.

MR. BROLASKI SURPRISED.  
SAN FRANCISCO, Dec. 28.—Harry Brolaski, recently convicted in San Francisco for violating Federal prohibition statutes, said tonight that he had not heard of any action in San Francisco to take him back there because he had crossed the line into Mexican territory, except from reading the local newspapers.

"I believe," he said, "that my bail is of sufficient amount to insure my appearance in San Francisco when the case comes up again. I could not very well make my escape even if I thought of doing such a thing. I am lame and I am known pretty much all over the continent. I went across to Tijuana, Mex., merely for pleasure."

CHANGE WANTED IN COMPENSATION LAWS.  
PORTLAND (Or.) Dec. 28.—With a view of obtaining more uniform compensation laws in the western States, the committee of fifteen, named by Gov. Olcott to make recommendations for changes in the Women's Compensation Act, of Oregon, has proposed that the Governors of Oregon, Washington, California, Idaho and Montana appoint delegates to a joint conference to be held some time during the next few months.

STEAMER GOES DOWN IN GULF OF MEXICO.  
BOSTON, Dec. 28.—The loss in the Gulf of Mexico of the schooner John Pierce was reported today.

Capt. M. Carson, skipper of the schooner, telegraphed from New Orleans that he and the six men of the crew had been landed there by the steamer Tegucigalpa. The John Pierce had been absent thirty-two years.

Object to Navy Radio Control.  
ST. LOUIS, Dec. 28.—A protest against the Federal Radio bill, which provides for placing all radio activity under control of the Navy Department, was made at the convention of the midwest division of the American Radio Relay League, which opened here tonight.

BURLINGTON RAILROAD CUTTING DOWN FORCE.  
AURORA (Ill.) Dec. 28.—Orders were received from the Burlington Railroad general offices in Chicago to lay off 15 per cent of the men in the Aurora car and locomotive works January 1. About 500 men will be thrown out of work.

Similar orders have been sent to other shops on the system.

### LEGION HEAD SCORES TREASURY SECRETARY.

DECLARES HOUSTON'S TESTIMONY ON BONDS FOR SOLDIERS MISLEADING.

(BY A. P. MONT WIRE.)  
WASHINGTON, Dec. 28.—"Testimony" by Secretary Houston before the Senate Finance Committee yesterday placing the cost of carrying out the pending adjusted compensation or soldier bonus bill at \$2,500,000,000, was characterized by F. W. Galbraith, national commander of the American Legion, in a statement tonight as "a cut-throat skirmish to muddy the waters so that the principles involved can be clouded in a lot of figures that mean nothing."

Mr. Galbraith estimated the maximum amount the bonus bill would cost the government at \$1,375,000,000.

"Secretary Houston's whole presentation of the matter," said the Legion commander, "was misleading and designed to frighten the country into a repudiation of its obligation to ex-service men. The general impression was conveyed by his testimony that the passage of the adjusted compensation bill would entail a statement of the cost of billions of dollars by the government and seriously cripple the financial condition of the country."

The facts are that appropriations necessary to carry out all features of the bill except that of cash compensation would be negligible for this year and for several years to come and that appropriations for cash compensation are not asked until July, 1921, and are to be spread over two years."

JAPS GET PRISON FOR STEALING MAPS.  
TOKYO, Dec. 28.—Tsunashiro Oyama, who was charged sometime ago with stealing maps of Siberia and offering them for sale to the American military attaché in Tokyo, was sentenced today to three years' imprisonment, having been convicted of the crime of espionage.

An accomplice of Oyama received a sentence of two years. Both men have taken appeal.

Oyama was arrested last June, at this time a law student named Sakuma was taken into custody on a charge of selling war maps.

In July it was announced that the American Embassy in Tokyo had turned over to the government 200 maps of Siberia, which Oyama had left temporarily in the office of Col. Charles Burnett, the American military attaché. Oyama, at a hearing in October testified that Col. Burnett declined to purchase the maps on the ground that they were worthless.

Edward Bell, the American Charge d'Affaires, when Viscount Tsubokawa, the Foreign Minister, requested the maps for use as evidence against Oyama, informed the Foreign Minister that Oyama had represented himself as a merchant of Khabarovsk, and that an examination of the maps had shown they formerly were the property of the Russian General Staff. There was nothing to show that they were the property of Japan.

LONG LAND VOYAGE FOR THESE SAILORS.  
SHIP'S CREW BEING SENT FROM BOSTON TO SAN FRANCISCO BY TRAIN.

(BY A. P. MONT WIRE.)  
BOSTON, Dec. 28.—The deep sea saloonship of the freighter, the Yaca, would resent any imputation that they were dry-land sailors, but they did not disguise their pleasure today when they began a 3,000-mile voyage to San Francisco, traveling as tourists instead of facing wintry seas.

The 3,000-mile sightseeing trip came to them unexpectedly. Their ship, after a voyage here from Japan, was ordered to New York to lay up for repairs and the crew having shipped from San Francisco under articles that provided for return to their home port, were given "transit passes" to finish the cruise by land instead of by sea. Their stops will include parts of call that the eyes of a sailorman seldom see, although some have sailed the seven seas in voyages of years.

WILSON ADVISED TO GRANT ROADS GRACE.  
WASHINGTON, Dec. 28.—President Wilson was advised by the Interstate Commerce Commission today to sign the bill recently passed by Congress amending the Transportation Act so as to defer until January 1, 1921, operation of section ten of the Clayton Anti-trust Act. The recommendation by the commission to which the President referred the bill, was understood to have been by a vote of six to four.

The anti-trust act, which would be suspended prohibits railroads purchasing equipment and other supplies from concerns in which the roads are interested except with approval of the Interstate Commerce Commission.

W. H. Johnston, president of the International Association of Machinists, recently requested the President to veto the amendment, declaring it simply legalized a great steal from the American public.

ESCAPED INMATE IS HELD FOR MURDER.  
SAN FRANCISCO, Dec. 28.—Charles Keller, an escaped inmate from the Alcatraz Prison for the Insane, is being held by the police as a suspect in the murder of Fred Hunt, who was killed in the basement of a downtown theater while delivering ice cream December 6 last.

Chamberlain's Cough Remedy.  
Now is the time to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before the winter is over. ## PRICE SYSTEM IS EXPLAINED.

Building Trust Quiz Committee Probes Cement Makers.

Undermyer Charges Manufacturers Quadrupled Prices.

Code Letters and Changes in Quotations Are Told.

(BY A. P. MONT WIRE.)  
NEW YORK, Dec. 28.—All but a small fraction of the cement and terra cotta manufacturers of America exchange their price quotations and other data on the amount of business handled through national and regional associations, it developed here today at the legislative inquiry into the alleged building trust.

While these revelations accumulated on top of similar ones recently brought forth in the investigation of other construction lines, one more organization of building contractors—the building association announced it had dissolved. The members promised to have unrestricted, open competition in the future.

**EXPLAINS PRICE SYSTEM.**  
The medium through which the terra cotta makers reviewed data on the business of all their competitors was the National Terra Cotta Society, its former president, William H. Powell, told the committee. He explained an open price system of cards was issued with each firm designated by code letters. This was done daily in detail among regional branches of the society in the east, west and central sections of the country. General data were exchanged between the sections weekly.

Cement manufacturers from various parts of the country who had been attending a convention were summoned by subpoena servers of the committee, and they answered one after another to undergo examination by Samuel Undermyer, committee counsel.

**QUADRUPLED PRICES.**  
Quoting from price lists of manufacturers who faced him, Mr. Undermyer charged that all members of the cement makers had "quadrupled" prices since 1919 and had boosted them 50 per cent between January and October this year. When the quotations were slightly lowered.

The prices quoted by all the manufacturers, however, in Portland Cement Association throughout the country were "historically, uniformly and uniform," he said.

Later two of the witnesses testified the price quoted by all cement manufacturers usually were identical within forty-eight hours after any one of them had made a change.

This association, according to a summary of its transactions, which

were read into the record, spent \$1,600,000 last year. Mr. Undermyer expressed a desire to get the books in order to find out how this large sum was expended and John R. Morin, president of the Atlas Portland Cement Company, which he said, contributed \$125,000 to the association's fund in 1919, ordered the secretary to produce the books from Chicago.

Mr. Morin, one of the principal witnesses of the trial, told the committee the money was apportioned by States and used in employing engineers to "chaperon cement work" and promote the use of that product.

**HELD ON KILLING CHARGE 4 YEARS OLD.**

**ACCUSED MAN SAYS HE IS GLAD LONG TERM OF WANDERING IS OVER.**

(BY A. P. MONT WIRE.)  
SACRAMENTO, Dec. 28.—Frank Holmes Sain, a mining engineer, 28 years old, is under arrest here today on the charge of killing William S. Crabtree, also a mining engineer, in Jenkins, Ky., on May 7, 1918.

Sain says that he is glad his long term of wandering is over, according to the police. He served two years overseas during the war. He will wait for extradition and wants to be taken to Kentucky at once, the police stated. He says that he killed Crabtree in self-defense, the officers announced. The slain man accused him of undue attentions to Mrs. Crabtree, he told the police.

**PAYMENTS SUSPENDED BY BARCELONA BANK.**

(BY CABLE AND ASSOCIATED PRESS.)  
MADRID, Dec. 28.—A government delegation proposed to Barcelona today with a mission to investigate the banking situation which resulted in suspension of payments by the Bank of Barcelona.

El Sol, commenting editorially today on the situation, says the suspension of the oldest bank in Catalonia was merely a natural phenomenon of industrial conditions and that it would not be surprising if there were similar occurrences. The newspaper believes that extreme alarm is not called for, as with proper control a financial catastrophe can be avoided.

## GEORGIA ACTS AGAINST REDS.

Little Republic Expected to be Swamped Soon.

Sharp Note Handed to Soviet Representative.

Communist Leaders Advise That Coup be Made.

(BY CABLE AND ASSOCIATED PRESS.)  
TIFLIS, Dec. 28 (Delayed).—Energetic measures against persons suspected of being Bolshevik agents have been adopted by the government of the Georgian republic. The representative of Soviet Russia has been expelled from Kutais, north of Batumi, on the eastern shore of the Black Sea, while Soviet clubs have been raided, their members arrested and arms and documents seized.

A sharp note has been handed Mr. Sheman, who represents the Moscow government there, stating the administration of the republic has decided upon a ruthless warfare against plotters and will not tolerate Soviet machinations in this country. Georgia, however, is not completely surrounded by Bolshevik states, and it is expected, Soviet Russia will be expected to make a full report of his official trip to Washington. He intimated today that the committee may also outline a legislative program for presentation to the Legislature, which convenes here next week.

**REDA THREATENING.**  
PARIS, Dec. 28.—The Bolsheviks are greatly strengthening their operations in the Caucasus region and are menacing the new Baltic States, it is indicated in a dispatch received here today from diplomatic sources. The message points out that the Armenian government is unable to deal with the Bolsheviks, having on one hand the Turkish Nationalists and on the other the accepted Soviet regime. That government, however, has refused the Bolshevik demand that Soviet troops be massed on the frontier be allowed to penetrate the country as a condition to participation in the peace negotiations now in progress at Alexandropol, between the Armenians and Turks.

Georgia is said also to be in a precarious situation, surrounded by Bolsheviks on all sides. Competent authorities forecast that the entire

Caucasus will become Soviet shortly. The greatest resistance is coming from the Muslim Turkish and the Bolsheviks are discussing the entire question of the Caucasus at Tiflis. From Latvia comes the news of a concentration of Bolshevik forces, estimated at 60,000 men, on the Latvian frontier.

**STEPHENS CONFERS ON JAP SITUATION.**

SEES V. S. MCDONALD AND STATE SENATOR INMAN ON EXCLUSION LAWS.

(BY A. P. MONT WIRE.)  
SACRAMENTO, Dec. 28.—A conference on the Japanese situation as found existing in official circles in Washington was held here this afternoon by Gov. Stephens vs. McDonald, who represented the Japanese Exclusion League of California, and the Los Angeles County Anti-Asiatic Association. State Senator J. M. Inman and State Controller John S. Chambers.

McClatchy, who has been in Washington recently in the interest of the Japanese Exclusion League of California, stated that the conference had to do with his visit there. He added: "Further than that I cannot at this time make any statement concerning the results of this afternoon's conference without violating the confidence of the State Department at Washington."

A meeting of the executive committee of the Japanese Exclusion League will be held in San Francisco on January 4, when McClatchy will make a full report of his official trip to Washington. He intimated today that the committee may also outline a legislative program for presentation to the Legislature, which convenes here next week.

## AMERICANS DETAINED BY SOVIET.

Capital Advised of Unexplained Refusal of Reds to Let Them Leave Russia.

(BY A. P. MONT WIRE.)

WASHINGTON, Dec. 28.—An unexplained refusal of the Bolshevik authorities to permit them to proceed caused a few Americans, who had almost succeeded in leaving Soviet Russia, to be returned to Petrograd, according to advices received today at the State Department from Baltic sources. Reports to the department earlier in the day were that the Americans and several persons of British and other nationalities had been permitted to move toward the frontier with the object of leaving the country.

Approximately 100 Americans are detained in Russia, according to State Department estimates.

Those whose safety was assured today include Miss Margaret L. Waller of Bloomington, Pa.; Dr. James L. Park, Indiana, Pa.; Martin L. Weaver, La Junta, Colo.; Roy E. Langer, O. C. P. H. Crathern, Y.M.C.A. worker of Boston, Mass., and Dr. Joseph A. Stewart, Jr., of the University of Georgia, Athens, Ga., who was heard from last at Diabek, north-east of Ufa.

Although there has been considerable fighting in the vicinity of Ufa since the American relief personnel went there, the workers have not been molested. Near East Relief officials said.

## BUT WOULD CHARLIE ACCEPT THE OFFICE?

THREE PERSONS VOTE FOR COMEDIAN AS GOVERNOR IN NEW YORK ELECTION.

(REUTERS DISPATCH.)  
NEW YORK, Dec. 28.—Three voters in New York county cast their ballots for Charlie Chaplin for Governor in the recent election.

One voted for John Larkin, the Irish patriot, for Governor. There was one vote for J. P. Morgan as State Controller, one vote for John D. Rockefeller as State Treasurer, and one vote for Charles Foul for the same office.

Four thousand six hundred and ninety-seven people were too indifferent to vote for the President of the United States.

Twelve thousand seven hundred and thirty-five neglected to vote for Governor, and 27,814 omitted the Lieutenant-Governor.

**PRIZE HOSPITAL SHIP NOW IS NAVY UNIT.**

RELATES ONE OF MOST COMPLETE VESSELS OF KIND IN WORLD.

(BY A. P. MONT WIRE.)  
PHILADELPHIA, Dec. 28.—The hospital ship Relief, launched Dec. 28, 1918, was commissioned as a unit of the Navy today at the Philadelphia navy yard. It is the first vessel of its kind to be constructed expressly for naval high seas maintenance and operation.

The Relief is one of the two largest ships ever built at the navy yard and is said to be the best equipped hospital ship in the world. The vessel has a bed capacity for 500 patients.

## RESCUE BATTERY TEMPERATURE CONTROLLER

Remember RESCUE is endorsed by experienced battery men. It can be used on any battery and it does not go inside of the battery at all.

Tested and Approved for Accuracy of Operation by Two Leading Battery Manufacturers. RESCUE Takes the Guess Out of Automobile Battery Protection By Giving You Complete, Positive Control Over Battery Temperature. BATTERY Engineers say overheating causes 90% of all premature battery deaths.

You never know—nobody does—whether your battery is heating. Many times you see men running their cars with lights burning during the day. Mostly they do it at the wrong time—and they never know till the damage is done.

RESCUE stops that. RESCUE is a neat, compact device which attaches to the steering column, in plain view and within easy reach. It embodies a red and green light—danger signals—and a switch (see illustration)—the whole about the size of your watch.

Its thermostat fastens on—not in—the battery. Just the minute your battery begins to overheat the red light flashes. You throw the switch, the battery is relieved of the excess charge, the green light signals and you know that the temperature of the battery is normal.

Ordinarily you learn of a ruined battery when you are told you need a new one. That is the old and costly way—and the annoying way. RESCUE stops all daylight headlines burning. It makes you feel secure by eliminating the great, unseen menace of battery death. It gives you an instantly available remedy against overheating.

It is "The One Device That Insures 100% Battery Life." And it insures full service all during the battery life. Get a RESCUE for your car. Easily attached in an hour and as simply removed should you sell the car.

RESCUE is sold by all the better dealers, dealer and battery service men. Get a RESCUE—and it will rescue your battery many, many times from premature death—and save you some real money that you'll like better to spend for gas than for a new battery.

Get RESCUE today—only \$10.00. Write for booklet, "What Would You Do If This Happened to You?" giving name of your dealer.

## Confidence

THE CONVICTIONS of Columbus, his faith and  
confidence in the thought of a new world across the  
seas, so impressed Queen Isabella that her jewels were  
pledged to make the thought a reality. Through confidence  
was a continent discovered.

Credit depends upon confidence. Without confidence  
there could be no credit. The selling of furniture through  
credit has developed a better understanding of confidence.  
The merchant takes the buyer at his word, and both are gain-  
ers thereby.

Thousands of people do not avail themselves of credit,  
believing, although falsely, that it is undignified. Nine-tenths  
of all great commercial transactions are conducted on a credit  
basis. There is no reason, then, why any one, no matter how  
small their resources, should not make use of this force to  
better and beautify their homes.

## CRIME CLEAN-UP SHOWS RESULTS.

New York Police Arrest Two  
for Bank Robbery.

Declare Men Have Confessed  
to Doing Milltown Job.

Old-Time Convict Held for  
Diamond Hold-up.

NEW YORK, Dec. 28.—Two men  
charged with being members of  
the band that held up and robbed  
the First National Bank of Mil-  
ltown, N. J., December 20, escap-  
ing with \$25,000, and believed to  
have been implicated in the mur-  
der and robbery December 16 of Ed-  
win M. Andrews, Fifth-avenue Jew-  
eler, were arrested tonight with their  
wives.

Liberty Bonds valued at \$15,000,  
said to be part of the Milltown ro-  
bbery loot, were found in a suit case  
carried by the women, police said,  
and added that all four carried  
firearms.

Coincident with these arrests  
came an announcement that Police  
Commissioner Enright's latest mea-  
sure to curb lawlessness—the call-  
ing out of more than 100 new  
police for training—had been  
dealt a knockout blow when the  
Board of Aldermen failed to vote  
necessary funds for their pay.

In denying an appropriation of  
\$1,500,000, the Aldermen promised  
to reconsider it.

**FIGHT WHEN ARRESTED.**  
The men taken into custody to-  
night said they were Jerome B.  
Chaffee, 28, and Harry Blumberg,  
26. Resisting arrest, they fought for  
several minutes before being sub-  
dued. The women surrendered.

Fifth avenue was crowded with  
Christmas shoppers when two men  
entered the jewelry shop of An-  
drews on the eighth floor of a build-  
ing in the center of the fashionable  
shopping district. Andrews was  
shot in the chest and the men at-  
tempted to flee.

Two jewelry salesmen who  
entered while the safe was being  
rifled were bound and gagged. The  
men escaped with gems valued at  
\$100,000.

The night of December 20, four  
bandits entered the bank at Mil-  
ltown, bound and gagged the watch-  
man, placed the loot in handbags,  
and fled. Releasing himself, the  
watchman sounded an alarm. After  
a chase through the Jersey marshes,  
two men were captured by a posse.

During their trial they are said to  
have given information regarding the  
identity of their confederates.

While operating under various  
aliases, the prisoners are accused by  
the police of having taken part in  
many sensational hold-ups and ro-  
bberies throughout the country.

NEW YORK, Dec. 28.—The pris-  
oners were grilling by the police and  
were said tonight to have confessed  
that they were members of the band  
that perpetrated the Milltown ro-  
bbery. A third man, who accom-  
panied them today, was charged with  
being a fugitive from justice. He said  
he was Chester J. Levine.

Frank Flanagan, 25, who, after  
serving sixteen months in the  
death-house at Sing Sing prison, was  
granted a retrial and acquitted of a  
murder charge in October, was ar-  
rested tonight on suspicion of being  
involved in the robbery of \$60,000  
December 22 for Honolulu.

in diamonds from a messenger No-  
vember 27.

While police followed underworld  
clues to the identity of the slayer of  
"Monk" Eastman, notorious gang  
leader, arrangements were being  
made tonight for his burial to-  
morrow.

Eastman's sisters failed to appear  
at the morgue to claim the body but  
notified the authorities they would  
defray expenses and requested that  
he be given a respectable funeral.

**OPERATORS AND MEN  
WILL CONFER SOON.**

ATTEMPT TO BE MADE TO SET-  
TLE PROBLEMS OF AN-  
THRACITE FIELDS.

HAZELTON (Pa.) Dec. 28.—Ac-  
cepting the offer of the operators to  
adjust inequalities and injustices  
within the present wage agreement,  
the general scale committee of the  
anthracite mine workers late today  
instructed its subcommittees "to  
meet with representatives of the op-  
erators, and endeavor to work out  
a basis of settlement that will bring  
general satisfaction to the anthracite  
mine workers."

None of the demands of the hard  
coal miners for additional wage in-  
creases will be dropped, Thomas  
Kennedy, chairman of the commit-  
tee, announced, adding that an at-  
tempt would be made again to have  
the operators consider them as "part  
of the existing inequalities."

"Our sole desire is to work out a  
constructive program," said Ken-  
nedy, "that will give general satis-  
faction to the body of anthracite  
mine workers and stability in the  
region."

The operators also will be asked  
by the subcommittees, it was learned,  
to see that all miners in the field  
get the 17 per cent increase recently  
granted in the commission's award.

Charges have been made by miners'  
representatives that thousands of  
miners in the three anthracite dis-  
tricts never have received the full  
increase.

BY FORMER MINISTER.**

SPANISH POLITICIAN AN-  
NOUNCES DECISION TO OP-  
POSE GOVERNMENT.

MADRID, Dec. 28.—Former War  
Minister Cierra y Penafiel an-  
nounced his determination to oppose  
the government from the moment  
Congress opens. He will begin ob-  
structive tactics by demanding com-  
pliance with the regulations of  
Parliament, which necessitates the  
production of the birth certificates  
of all deputies.

Deputy Aura Banaraz, as the old-  
est member of the House of Rep-  
resentatives, will preside. He was  
born, however, before registration  
was compulsory and cannot produce  
a certificate. This is likely to give  
rise to a conflict immediately.

SAN FRANCISCO, Dec. 28.—

Wireless reports to the marine de-  
partment of the San Francisco  
Chamber of Commerce today said  
the Matson Navigation Company's  
steamer Wilhelmina had gone to aid  
the Java Pacific steamer Ball, which  
reported a broken tail shaft. The  
Ball left here December 20 for  
Honolulu.

SAN FRANCISCO, Dec. 28.—A  
campaign to build an automobile  
highway from San Francisco to Reno,  
and from Reno direct to San Fran-  
cisco, was launched here today when  
Adolph Mack, chairman of the high-  
way department of the San Fran-  
cisco Chamber of Commerce, ap-  
peared before the Board of Super-  
visors and outlined a plan to raise  
\$400,000 in San Francisco for the  
highway.

The Board of Supervisors was  
asked to contribute \$5000 toward a  
publicity campaign to raise the \$400,  
000, the Chamber of Commerce to

## GRECIAN BANK HEAD WILL STAY ON JOB.

ATHENS, Dec. 28.—M. Zaimis,  
director of the national banks, who  
was Premier when King Constantine  
was expelled from Greece, has  
declined to resign his directorship  
of banks at the behest of the Rha-  
lia ministry. It is said that M.  
Zaimis will not open the coffers of  
the banks for the present govern-  
ment, as he did in the case of Pre-  
mier Venizelos, to whom he ad-  
vanced \$50,000,000 drachmas.

## BUFFET SUPPER FOR NEW YEAR.

Menu of Good Cold Dishes is  
Outlined in Detail.

Boston Brown Bread Making  
Isn't Complicated.

Even Without Beer Rarebit is  
Possibility.

BY A. L. WYMAN.

[Chief Wyman will give his tested and proved recipes for any dish that the readers of The Times may ask for. He will answer questions pertaining to food and cookery. Answers will be published in this column. Address all questions and requests to A. L. Wyman, 4225 1/2 Woodlawn avenue, Los Angeles—E-1.]

To all my readers and correspondents, I wish a very happy and prosperous New Year.

I have received a number of letters from readers in which they say they have not answered the questions asked. All requests and questions are answered in the order in which they are received and if any persons have been disappointed it is due to the fact that I have not received the requests. E. N. A. South Pasadena, would like to have suggestions for a buffet service for New Year's Day. For this occasion the service should consist of foods that can stand a number of hours without deterioration. The foods should be placed on an attractively decorated buffet or table and should consist of dainty sandwiches, light salad, petit fours, a bowl of punch and, if liked, have handy an iced container with frozen fancy creams. The service should be for small plates, punch glasses and napkins.

**KINDS OF SANDWICHES.**

For the sandwiches prepare the ribbon sandwiches of egg, cheese and chicken, ginger and orange, and have some canapes of caviar, smoked salmon and anchovy. For salad serve small halves of avocado filled with cubes of brange and pineapple mixed with a French dressing made with lemon juice. For a punch for forty, mix the juice of twenty-four lemons with five cups of sugar, four cups water and one bunch of bruised mint; let stand half an hour. Place in the punch bowl a large piece of ice and pour over lemon mixture two quarts of grape juice and two quarts of sparkling apple juice and three quarts of carbonated water. Decorate with discs of oranges, pineapple, cherries, and mint leaves and slices of lemon.

L. J. Garden wants to know if Boston brown bread and ginger bread are as wholesome made with cubes of baking powder as they would be if yeast were used. Baking powder and soda are generally used in making Boston brown bread and ginger bread and I have never known them to be unwholesome, except when inferior baking powders were used. To make the ginger bread, place in a saucepan half a cup of molasses, four tablespoons butter, four tablespoons sugar and bring to a boil; remove from fire and add two egg yolks beaten with half a cup of sour milk. Sift one and a quarter cups of flour with one teaspoon soda, one table-

## RETAIN CIDER ON BLACKLIST.

Police Commissioners Allow  
Other Soft Drinks to Go  
Back to Pool Halls.

The Los Angeles Police Commission views cider drinking with alarm in these days of Mr. Voistead and his well-known act, and so the commissioners stood out on their order that beverages made from apples, but which may be "pepped" up by adding drops of this or that, may not be sold in local pool and billiard rooms.

The commissioners originally ordered all beverages out of these licensed places, but the bottlers of very soft drinks arose at yesterday's meeting of the commission and protested, with the result that all drinks may be sold in pool-rooms except cider.

"Cider may be soft one day and hard the next," said Commissioner Barry in voting against any lifting of the ban on this particular drink.

**MUST BE STEAMED.**

Boston brown bread is made by stirring together one cup rye meal, one cup corn meal, one cup whole wheat flour, one and a half teaspoons soda, and teaspoon salt; add to this three-fourths cup of molasses and two cups sour milk, beat smooth and pour into a shallow, buttered and floured baking pan and bake in a moderate oven for thirty minutes.

L. E. R. Glendale, has had luck with her custard pie filling and requests a recipe. Beat light three eggs, beat into the eggs one-half cup of sugar, one-half teaspoon salt and beat well; add two cups sweet milk and mix well. Turn into pastry-lined pie pan and place in a medium hot oven; after five minutes reduce the heat and let bake slowly for twenty-five minutes.

A. N. H. city, would like a waffle recipe. Sift four cups of flour with four teaspoons baking powder, one teaspoon sugar, half teaspoon salt and rub in three tablespoons butter; three and a half cups of milk and a quarter cup of oil; beat to a smooth batter and bake on hot griddle with a little oil.

R. L. B. A nice Welsh rarebit made without beer, can be made by placing in the top part of a double boiler or chafin dish a tablespoon of butter and when the butter is very hot add one pound of rich cheese cut in small pieces; when cheese starts to melt start stirring and stir constantly with a silver fork in one direction.

**NEVER STOP STIRRING.**

Beat the yolks of two eggs with one teaspoon of English mustard and two teaspoons Worcestershire sauce and stir into the cheese; do not stop stirring. When cheese is all melted and smooth add a little buttermilk, season with salt and paprika; just before serving add the stiffly beaten whites of two eggs. A nice addition is to sprinkle over the rarebit a few Roquette cheese crumbs.

P. A. F. Hollywood, would like to have a recipe for genuine beef à la mode. Cut a half a pound of firm fat salt pork in strips the thickness of a lead pencil and roll in a mixture made with a teaspoon each of ground cloves, allspice, cinnamon, black pepper, savory, thyme and salt. Make deep incisions in a five-pound shoulder roast of beef and force the pork strips into them. They can be run in with a larding needle. Rub the surface of the beef with the remaining spice mixture and place in a deep earthen dish. Scald two cups of cider vinegar with three bay leaves, a blade of mace, two tablespoons chopped parsley, one small finely chopped onion and when cool pour over the beef and cover tightly; turn night and morning for five days and then simmer in the vinegar and enough boiling water to cover for four hours. Thicken the liquor with flour and strain over the beef before serving. Serve with potato pancakes.

For the potato pancakes, beat into four cups of grated raw potato four eggs, beating in one at a time and beating thoroughly after adding each one. Season with salt and pepper and stir in half a cup of flour, if liked add a little onion juice. Drop with a tablespoon on a hot greased griddle and bake well. Should be served very hot.

**DUTCH APPLE PIE.**

P. A. L. Santa Barbara, wants to know if I have a recipe for Dutch apple pie. I have. Roll very thin some good pastry and line a square baking tin with an inch-high edge. Peel, core and slice thin two pounds of apples. Cover the bottom of the pastry-lined pan with a layer of diced apples, cover apples with half a cup of light brown sugar and a teaspoon of powdered cinnamon. Over this place another layer of coconut and raspberry jam, cover with pastry, seal the edges, wash with milk, dust with granulated sugar and bake in a slow oven one and a half hours. Serve hot or cold.

A. R. Pasadena, requests a recipe for fruit salad dressing that contains no oil. Cream three tablespoons of butter with two tablespoons of sugar, add three well-beaten egg yolks, mix smooth and place in a double boiler and cook until thick, stir constantly, add the juice of one lemon and season with salt, paprika and celery salt and cook again. When thick, remove from fire and beat well. When thoroughly cold add one cup of whipped cream. This makes nice salad when used with equal parts of seeded and halved grapes, sliced bananas, oranges and pineapple. Decorate with walnut halves and maraschino cherries.

**BROUGHT FROM ARIZONA.**

R. A. Loring, indicted by the Federal grand jury for stealing a touring car in this city and taking it to Phoenix, was brought from there yesterday by a deputy United States Marshal and lodged in the County Jail. The asserted offense is said to have been committed on November 20, last. Loring will be prosecuted under the Dyer law, prohibiting the taking of an automobile from one State to another without the consent of the owner.

## NEW YEAR'S DAY PROGRAM IS GAY

Rose Tournament Parade and Ball at Pasadena.

Dinner for Poor Here Event Listed for Saturday.

Ambassador Hotel to Open Minute Past Midnight.

The opening of the New Year will be marked in Southern California with two annual events—the Tournament of Roses in Pasadena in the afternoon, and the annual dinner given to the poor of the Southwest by "Uncle Mose" Loewenstein. Together with the opening of the first time of the new Ambassador Hotel, these events will be the principal features of the day which will close with the tournament ball at the Maryland in the evening.

The tournament at Pasadena will open with a parade in the morning in which hundreds of machines and horse-drawn vehicles will participate and in which millions of flowers will be used as decorations. Some of the floats have been weeks in building and flowers are now being accumulated to be fastened in place. New Year's Eve, when the citizens of Pasadena turn out to help with the finishing touches.

The route of the parade will be the same as on previous years. The various divisions will form along the streets off South Orange Grove avenue and at 10 o'clock the line of march will begin along Colorado street to Fair Oaks, south to Green, east to Raymond, north to Colorado, west to Fair Oaks, north to Holly, east to Raymond, south to Colorado, east to Wilson at the eastern extremity of the city, and thence south to Tournament Park, where the Ohio-California football game will be called at 2 o'clock.

OPENS WINTER SEASON.  
At 5 o'clock in the evening the annual tournament ball at the Maryland Hotel takes place. It is to this that visitors and residents alike will go. The affair is one of the smartest of the year and marks the opening of the winter season.

At one minute past twelve Saturday morning, the doors of the new Ambassador will be opened. There will be no festivities at the hotel New Year's Eve, the formal opening ball taking place on January 1st. At noon on New Year Day Uncle Mose will throw open the doors of the cafeteria at 1198 South San Pedro street, which he has rented for the day to feed the 3500 poor, blind, crippled, deaf and dumb that he has invited to dinner.

This is the thirteenth annual dinner.

## CAN SAVE ON ROAD EXPENSES.

Married Traveling Man When He's Away from Home Is Tax Exempt, Ruling.

Internal Revenue Collector Carter yesterday received the answer to the question of musty minstrel memories. "Why is a traveling man?" According to the ruling daily transmitted to the collector from Washington, a traveling man who also is a married man may deduct his hotel and restaurant expenses while on the road from his gross yearly earnings when figuring up his income tax. To the collector's words, the amount of income on which he is to base his tax payment is his yearly earnings less his road expenses.

Unmarried traveling men are not affected by the ruling.

COMING BY AUTO.  
This year he has rented the cafeteria, where he will give to the inmates of the orphan homes, the blind schools, the deaf and dumb institutions, and to the aged and the poor, dinner consisting of turkey, mashed potatoes, with gravy, cranberry sauce, celery, hot mince pie, cake, ice cream, fruit, nuts, candy and cigars. He has secured 2500 people and stated yesterday that everyone will be well filled at the close of the meal. People will be brought by volunteer machines from many near-by cities.

The new Sunset pier, which was under construction at the time of the fire, will also be prepared to accommodate the merry-makers as a dance hall and cafe. A new building, a tent having been erected on the end of the pier, which will house the Ocean Inn Cafe, which was burned, and the new dance floor. A carnival will also be held on this pier. Ocean Park will also hold a celebration.

FOR Eisteddfod.  
Under the auspices of the Welsh Presbyterian Church the Welsh colony of Los Angeles will welcome, in the new year with an Eisteddfod program of poetry, music, recitations and literature Saturday afternoon and evening in the Y.M.C.A. auditorium.

Cash prizes are to be given for essays in English and in Welsh, for recitations in English and Welsh for children, as well as in poetry, both English and Welsh, in translation from English to Welsh and in music. The musical contests cover a wider field than the others.

A midnight surprise will feature the Union League Club's New Year's Eve festivities Friday evening, according to Chairman Joseph Zuckerman of the entertainment committee. There also will be a New Year's Eve band, a cabaret performance, dancing and vaudeville at the club's new building at Hill and Third streets.

## Army and Navy Ready to Help if Need Comes.

Col. Henry J. Hatch, commanding at Fort MacArthur, and Capt. Chauncey Shackford, commanding the submarine base at Los Angeles Harbor, stated yesterday at a conference held at the Mayor's office, that in the event of the Mayor calling upon their forces for police duty in the city, in case of a great conflagration or other calamity, they would instantly respond with aid without waiting for instructions from Washington.

Fire Chief Scott said he was confident the fire department would be competent to handle any conflagration which might come, provided a barrier of police and troops were thrown about the affected district.

Plans for complete co-operation among the public service corporations and the fire, police and other city departments were discussed and at later conferences there will be submitted for approval a formal course of procedure, which will be printed and on file for use should a calamity visit the city. The plan will assure the necessary unified administration and co-operation.

The conference was called by Mayor Snyder at the suggestion of Chief of Police Pendecant and was presided over by Fire Commissioner Denman.

## BUSY ON HARBOR DEAL.

Salt Lake Attorney and Commission striving for Agreement.

With the return from the East of Attorney A. S. Halsted of the Salt Lake Railroad company, conferences have been resumed in an effort to reach a compromise on a contract to permit the selling off of the railroad company's Terminal Island water-front property to permit the widening of the main harbor channel by the Federal Government. The City Councilmen object to the clause in the contract which has been submitted under which the city would forfeit to the company all wharves constructed to replace the wharves destroyed in case the work were not completed within the specified two-year and three-year periods.

Chairman Gordon of the Board of Harbor Commissioners yesterday said he was hopeful that an agreement could be reached and a revised contract presented to and approved by the Council.

## Bullock's After-Christmas Sales

—Such a whirl of vigorous buying! One doubts if Christmas really has gone. It seems as if shoppers are still buying against time—buying with only a few minutes to spare—in every section of Bullock's.

—There are reasons—Value reasons. And the minutes are full to the brim with opportunity. So many good things have been gathered together at such ridiculously low prices, it seems as if one must buy! Buy! Buy!

—It is to one's advantage to do so. It will be advantageous to do so every day of Bullock's After-Christmas Sales. Today—Wednesday—has its particular features. Read about them. Catch the spirit of these remarkable sales. Ask your neighbor if you do not know. Visit Bullock's and see for yourself.

—Last year, the year before, and years before that, Bullock's After-Christmas Sales contributed inspiration with a high peak of achievement. These are the foundation of Performance as it has been and will be this year. Promises are bright. Good fortune has gone hand in hand with Ability and Determination to provide Value and Opportunity. The moment is here. This announcement is your invitation to come and share—Wednesday—in the strong Value Merchandise which Bullock's After-Christmas Sales have brought together.

## Great After-Christmas Reductions in Bullock's Boys' Store

—Reductions on Clothing already in Bullock's Stocks—and astonishingly low prices on specially purchased, new Merchandise! "After Christmas Sales" prices that make the provisioning of Boys' Clothing a thing to be done right now—in this the last week of 1920!

—Two unusual values that are but typical of the many are listed below:

**Boys' "Prep" Suits, \$35.00**

—A group of suits that has come to be available to the Youths of Southern California—at a surprisingly low price—only through a most fortunate special purchase on the part of Bullock's! Such suits as these, offered at so low a marking, are certainly worthy of their place in these After Christmas Sales at Bullock's.

—These are most suitable for the Boys just leaving short trousers—the lines are rightly balanced for figures of slender build; the fabrics are fine tweeds and cashmeres; the new Brazilian Brown and stylish Grays are included in the many shades; the tailoring is expertly done; these are regular Suits—to be worn by regular young men—and they're offered at a regular Friend-making price! For boys of 16 to 19 years.

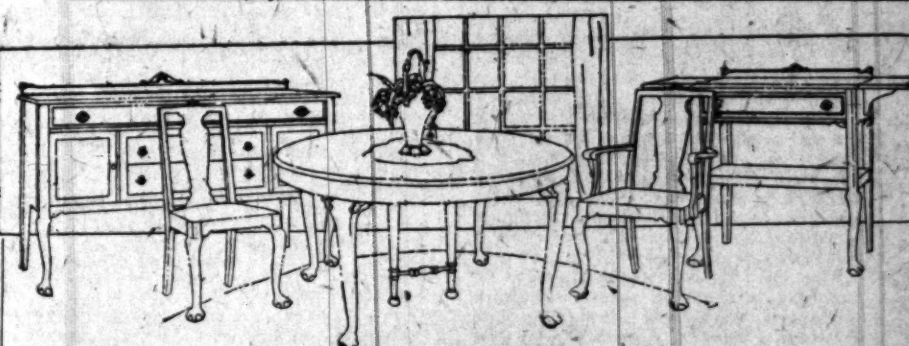

**Boys' Overcoats, \$14.95**

—Splendid, high grade overcoats—taken from regularly higher priced stocks and re-priced for these After Christmas Sales in Bullock's Boys' Store! Heavy Coats of pebble Cheviot and other nobby Coatings; worsted and flannel lined; convertible collars; full belts; fancy models and plain Russian styles; both plain colors and fancy mixtures; sizes for boys of 2 1/2 to 10 1/2 years. These Coats are values that should prove irresistible.

—A Complete Price Readjustment has been taken in Bullock's Boys' Store! The resultant values are not to be ignored! See for yourself—tomorrow—on Bullock's Fifth Floor.

—The After Christmas Sales in Bullock's Store of Motor, Golf and Travel bring—

**10 Golf Sets Reduced to \$10**

**1/2 Price Dining Room Suite, \$312.00**

—"It can't be true!" But it is true—in Bullock's Furniture Section during these Bullock After Christmas Sales!

—It's a nine-piece Queen Anne Dining Room Suite of American Walnut finish—consisting of Buffet, Server, Table, Arm Chair and Five Side Chairs—carefully executed in the desirable Queen Anne Period design. It's a surprising offering—but, amazing as it is, many other accompanying Values fairly surpass this one in unusualness!

**1/2 Price Living Room Suite at \$287.50**

—Reduced to one-half its former marking! Of strong, firmly-put-together mahogany—covered in attractive high grade damask, consists of Settee with three loose cushions—and two great arm chairs to match. A remarkable value.

—Many other pieces and suites for living room, dining room and bedroom—offered at prices one-half their former marking! Bullock's Seventh Floor. Prices prevailing this week only.

**New 36-Inch Drapery Cretonnes, 45c Yard**

—A Value-Giving After Christmas Sales price on newly purchased Cretonnes in pink, blue and yellow; all the new, fascinating patterns and designs included at this low marking; desirable draperies for Bedroom and Breakfast Room Curtains. Only 1200 yards obtainable at this After Christmas price.

**800 Yds. 36-In. New Filet Net 40c Yd.**

—Also including the many new and desirable patterns and designs—in white, Ivory and Arabian colors; this, too, is an unusually attractive marking for high grade Curtaining such as this.

**36-In. New Swiss Curtaining 50c Yd.**

Dots of white, blue, gold and rose; in either case the value is just as unusual and the Swiss exceptionally desirable for Bedroom or Breakfast Room windows.

**Lamp Standards, \$8.00—Silk Shades, \$19.25**

—The Standards made according to Bullock specifications with rich mahogany finish and good shaping—the Shades of high quality silk with delightful shadings of Gold, Rose, Blue, etc. This offering makes possible the provisioning of a complete Floor Lamp at \$27.25

—Bullock's Sixth Floor

A CALIFORNIA BLUNDER.

A California's anti-Japanese land laws have been in effect less than a year, yet it is already apparent that their passage was a blunder. The group responsible for the initiative petitions by which they were placed on the statute books is already busy drafting a new law to take their place. The cause for this about-face is to be found in the provision of a proposed amendment to the present treaty between this country and Japan. This amendment would guarantee to Japanese subjects in the United States equal rights with the subjects of all other nations.

Equal rights are denied to Japanese under the new California law; but it is within the power of the President and Senate to negotiate a treaty modification which will vitiate the California laws; for rights guaranteed under Federal treaties cannot be nullified by legislation by a State. It is now planned that a new land law shall be adopted in California which will deny to all aliens the right of owning or leasing agricultural land in this State.

When the anti-Japanese initiative was drafted The Times made the protest that it would be unwise to adopt such legislation, that it could do no good and would do a great deal of injury to the State. It was prepared by fanatics and was made unnecessary by the passage of the new law. The chief hole in it was that by adding two words to the present treaty between the United States and Japan the law could be made inoperative. As the result of negotiations between the State Departments of the two countries an amendment to the present treaty is now being drafted which places Japanese nationals on an equal footing in California with the nationals of other countries. That amendment will make it necessary to deny to all aliens the right to own or lease agricultural land in California. It will work a hardship on the people of the State, for the present law, according to Webster, is the state of being readjusted, and if we would think of it in that way the terror of the word would be gone. The state of being readjusted. That doesn't say anything about flying into a panic and racing around the country, declaring that all of our heretofore accepted standards of living are breaking down. It means that we are to come back to earth and go on living and moving and being in a normal way rather than in a war fever. Means that we are to go right on buying new clothes when we need new clothes, and being fitted for shoes when we need shoes.

Presiding our little a little farther we find that a passport is never required in a retreat. An army bent on getting away from a pursuing enemy has no time to bother with passports. Its face is the rear and its back to the firing line, but it so happens that an American army is never found in such a position.

Why, then, should American business be interested in anything except a forward movement? The answer is that it shouldn't. Being a victorious army, determined to attain new goals of commercial endeavor, a passport is necessary if only for the protection of its advance scouts.

The resources of this country are beyond our ability to understand. With 10 per cent of the world's population and 6 per cent of the world's land area we are producing from 40 to 60 per cent of nearly all the prime products of the world; have nearly half the world's railroad mileage and a third of the world's wealth.

There is work enough for all in this country. There is a market for everything we can make at a fair price and a fair profit, but let us remember that readjustment is the state of being readjusted, and a fair profit does not mean 100 per cent. There should be no place for pessimism or for halting or for inaction. Let everyone learn the password and use it, and our pathway to success will be as smooth as a California highway.

Keep a-going!  
PUNISHMENT WANTED.  
There's a bill ready for the Assembly which would repeal the present indeterminate sentence and parole system. In the present temper of the people such a measure would have the popular vote. There is a wide feeling that judicial leniency has something to do with the present wave of crime and that the law and the courts are not meeting the situation with proper severity. The parole prisoners are not making a favorable record for the system, and public sentiment is demanding sterner methods in dealing with lawbreakers. Criminals are having a rather easy life and the temper of the people is at the breaking point. This is found in the way so many were willing to condone the recent disgraceful lynching in the north. Justice is blind—much too blind—according to most folk.

WILD WOMEN.

Clara Smith Henson is a shrinking violet. She doesn't know whether to go into vaudeville or into the movies after her murder trial is over. She visibly doesn't expect to spend much time in jail. So deeply does she deplore the notoriety that has come to her that she is thinking of writing a book that will give the story of her life. Clara, in fact, talks like the usual small-town person to whom national notoriety has come and doesn't know whether to use it for glory or blackmail.

KEEP A-GOING.

Military lines are always protected by password, or passwords, without knowledge of which progress is barred. A soldier ignorant of this important information is little better than a prisoner, free to move about within a restricted area, but absolutely cut off from contact with the outside activities; doomed to monotonous repetition of the same duties; to see the same faces and to envision only that which may be encompassed within a small space. A soldier without the password does not get anywhere.

Just now we all need a password. A word that will do for us what "Open Sesame" did for Ali Baba, and roll aside the rock behind which are concealed the riches and the rewards of our activities.

The Times has come into possession of the magic word and proposes to pass it along for the benefit of all mankind that everyone who reads may advance fearlessly upon the sentinel and when challenged to know the answer.

"Keep a-going."  
Simple, isn't it? But behind those two letters lurks the germ of a successful 1921. What it readjustment rears its head and makes guttural sounds intended to frighten business? Readjustment cannot hurt if everybody goes about his business. Therefore, keep a-going.

What if foreign trade is temporarily disorganized and exchange at times and appears to say nothing of rights and mines? What if factories have closed and prices are coming down? What if the cotton crop is in storage instead of on the spindle? What if everything is the matter? Don't you see the answer? Well, it's just keep a-going.

No one is silly enough to believe that folks are going to stop wearing clothes; that cotton goods are about to become relics of a bygone day to be preserved in museums along with Tom and Jerry. No one really thinks that the American people are about to acquire the barefoot habit of a South Sea Islander or fare forth to sea or mountain to trap their food.

Production must go on. Therefore, why hesitate? If production stops, or slows down it will simply result in a short market, followed by a rush of orders and a new scale of ascending prices. Keep a-going!

If the farmers should cease tilling the soil, if the vast wheat fields were permitted to lie fallow, and cotton growers abandon their calling, if clothing manufacturers and automobile makers and shoe men should turn their backs upon the world, the world would very soon be in a bad fix. Keep a-going.

There is no sense in refusing to buy if everyone will learn the password and use it freely in getting about. To stop buying necessities only means that necessities must be bought eventually when the market is depleted. Then the law of supply and demand is called upon to operate under pressure, and the consumer always pays the price. Keep a-going.

Let's look at this thing we call readjustment. Readjustment, according to Webster, is the state of being readjusted, and if we would think of it in that way the terror of the word would be gone. The state of being readjusted. That doesn't say anything about flying into a panic and racing around the country, declaring that all of our heretofore accepted standards of living are breaking down. It means that we are to come back to earth and go on living and moving and being in a normal way rather than in a war fever. Means that we are to go right on buying new clothes when we need new clothes, and being fitted for shoes when we need shoes.

Presiding our little a little farther we find that a passport is never required in a retreat. An army bent on getting away from a pursuing enemy has no time to bother with passports. Its face is the rear and its back to the firing line, but it so happens that an American army is never found in such a position.

FORD'S RAID ON JEWS.

Henry Ford is a wizard at building low-priced motor cars; but as an editor he is about the most glib specimen that ever bought a stack of chips. Perhaps he is just beginning to learn that, while flippers will run on gasoline, it takes brains and at least a moderate knowledge of past and current history to run a newspaper.

His career as a pacifist at the beginning of the war and the opposition of his Dearborn Independent to any preparedness program in this country resulted in a million-dollar libel suit against another editor who called him an anarchist. That suit netted him one dollar in cash damages, cost him more than \$100,000 and advertised to the country his dense ignorance.

When extracts were read to him from what purported to be his own page in the Dearborn Independent he said he had never heard them before and didn't know why they were written. He simply hired one whom he considered a bright young man to write the articles and sign Ford's name to them. The public then forgave him, accepting his ignorance of things outside mechanical lines as an alibi.

But men who put money without brains into a newspaper can do a great deal of harm in a country wherein the rights of free speech and a free press are fully recognized. While the Dearborn Independent has but a meager circulation, it has a wide distribution, and Mr. Ford is permitting it now to be used for about the meanest purposes of Jew-baiting that has ever appeared in the United States.

He is conducting through the Independent a new kind of A.P.A. movement in which he pictures the nations of the world as about to pass under the bondage of a secret organization composed exclusively of persons of the Jewish faith and known as the "Wise Men of Zion." The writer of the articles is protected by anonymity; for, though Mr. Ford fathers them, no one suspects him of the authorship. The apparent intent is to awaken a hatred against orthodox Jews by reason of their religion. While unsupported by facts or documentary proof of any kind, the charges made are so monstrous that, but for the bitterness of the tone, they might pass for an attempt at slapstick comedy.

Mr. Ford is probably not yet aware that they are awakening through the country even greater indignation among those who are not of Jewish faith than among the orthodox Jews themselves. Mr. Ford's pacifism was reprehensible; but it was no worse than the present attempt to incite race hatred and religious hatred in the United States, where freedom from religious persecution is a national heritage. In a recent address ex-President Taft made a reply to the wild charges to the Dearborn Independent by calling them even more fanciful than the wild tales accredited to Baron Munchausen.

Mr. Taft pointed out that the alleged protocols of a Jewish conspiracy plainly existed only in the imagination of the writer of the articles. He said that "No instance of the exercise of its world-controlling power is cited as proof." The conclusion of the author rests on his own assertions and the further comprehensive and entirely satisfying assurance that everybody knows it."

Mr. Taft ridiculed the idea that any syndicate of international bankers would lend their aid to such a movement or had even so much as contemplated doing so. In this connection he said:

If it be true that international bankers and capitalists are Jews alone; if it be true that they wield a world power that controls governments and nations and wars and peace and economic law (these allegations are all made in the articles referred to) can the author of these articles in the Dearborn Independent explain why it is that more than half the 13,000,000 Jews in the world are still suffering not only persecution and oppression, but the bitterest poverty and starvation.

The tales of Baron Munchausen are the only things in literature that should be classed with these protocols, for they are not more preposterous. There is not the slightest ground for anti-Semitism among us.

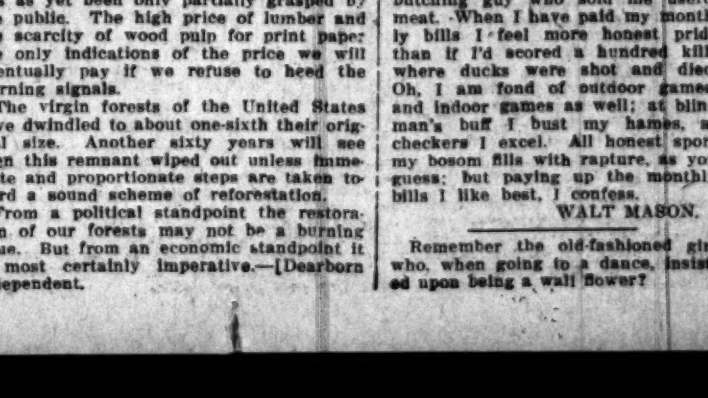

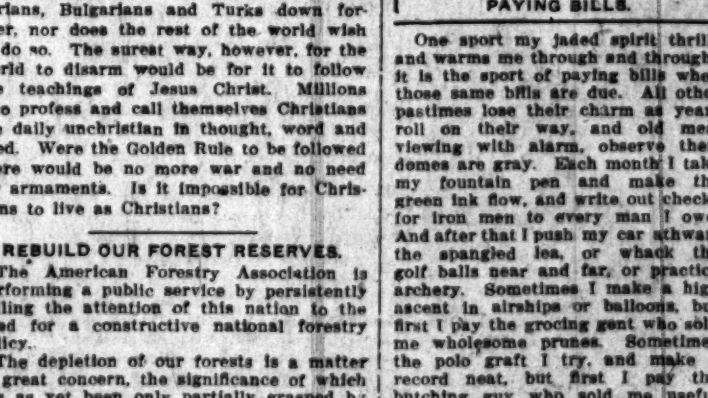

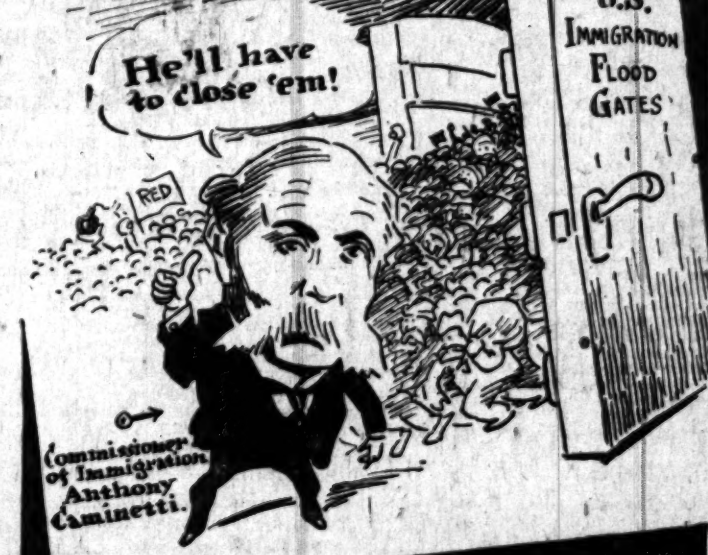

In this instance, as in many others since he has retired to private life, Mr. Taft has performed the meritorious service of fool-killing in checking the spread of noxious propaganda. The people of the United States as a whole will not tolerate religious persecutions. The orthodox Jew is entitled to the same rights and freedom as the members of any other faith. It is true that many of the world bankers are orthodox Jews; but that is not to the discredit of either banking, bankers or Jews. The names of orthodox Jews appear among the list of the men who have done most to promote the welfare of the American republic. The record of Jewry in the United States compares favorably with that of other faiths. The Jews have proved their patriotism, their valor and their liberality. They are good bankers, good merchants, good manufacturers and good citizens. Individual exceptions are not cited; but what race, nationality, sect or creed has not race? If there have been Shylocks among them, there have also been Jacob Schiffes.

Why the orthodox Jews should have been singled out for this unwarranted attack on the part of Mr. Ford's Dearborn Independent remains a mystery. There is nothing in their record before the war, during the war or after the war that lends even the slightest color to the assumption that any secret cabal exists among them.

REDUCTION OF ARMAMENTS.

Welcome as a good sign is the increased talk about the reduction of armaments. It is curious, however, to find that one of the strongest supporters of doing away with war weapons is a man who has bitterly fought the League of Nations plan. A League in which America, Germany and Russia, now outsiders, were members could certainly reach an agreement to cut down the manufacture of instruments of war. Senator Johnson says that "if the five great nations of the earth who constituted the five Allied and associated powers in the World War were to meet together and decide upon disarmament we would have taken the one great step that could be taken toward the promotion of peace and the prevention of all future wars." And what else would such a meeting and subsequent agreement be but a League of Nations? Senator Johnson led the opposition to America joining the League and now proposes a minor league to include this country. Consistency then, at a word, a pact between the Allied and associated powers alone would be insufficient to bring

ON THE AMERICAN SCREEN

IN BAD FAITH.

BY ALMA WHITAKER.

The public evidently likes it and that's what makes it so profitable, but one can't help wondering what the entertaining victims and their families think of it. This passion for lively and indiscreet "Memoirs," published by living people about both living and dead people, by which the author flourishes and waxes vain by "telling all the little things," the intimate private conversations, the small squabbles, the pet vanities and weaknesses, the romantic interludes, the tastes, manners and deportment of their superiors whom they have met and known.

We all remember those dashingly indiscreet memoirs of Old Lady Cardigan, who, in her frivolous age, gave away secrets wholesale. She really started the thing as a vogue, although, of course, Napoleon's valet and a few people like that had done it before, even as the scandalous Count de Gramont, who survives as a classic on the talers of other people's reputations of the days of Charles II of England. But during the last decade it has become an epidemic and no public character is safe from this sort of exploitation at the hands of his "friends," should they happen to have a gift for writing and moved in sufficiently interesting circles.

One observes that Bishop Welland of Durham, England, has publicly scored Mrs. Henry Asquith in a sermon for her recent little escapade in published indiscretion. "The outside world has been encouraged to gloat over the most sacred of human experiences, the love scenes and death scenes of public men and women," said his Reverence, adding that every one of his congregation must "deplore the bad taste which has profaned the sanctities of life of those associated with the highest political offices in the land."

Is it fair or right that private conversations should be thus recorded for profit? Mrs. Asquith, the wife of a British Prime Minister, had the opportunity of meeting most of the great men of her day—and she has treated them mercilessly in those precious memoirs. Incidentally endeavoring to prove that she pretty well ran the empire. She tells of a dinner or so notable men who were weary in love with her and sells their alleged devotion to her at so much a line. She has succeeded in making most of them very ridiculous, including her husband, ex-Prime Minister Asquith, who must certainly be in his dotage to allow them to be published.

And now comes a woman named Myriam M. French, "a close and dear friend" of Ella Wheeler Wilcox, who is beyond defending herself, unless she can hunt the lady in a few bad dreams. Everybody knows that the beloved human poetess had become rather sadly childish towards the end and gave herself up to outlandish bonitas in her pathetic endeavor to communicate with her dead husband. But her admirers don't want that; they want phase emphasized; they like to remember her in her prime, a nice, wholesome woman capable of reaching the heights of wide public popularity through good, homely verse. But Myriam M. French, who worked the outlandish board, through which Mrs. Wilcox's husband is alleged to have sent messages saying that she (Mrs. French) was the only person Ella should trust as her medium and that she ought to take her to Paris with her (!) is selling all the poetess's most sacred confidences and childish weaknesses to the public under highly profitable terms.

It is all very pretty and trifling, just a lot of silly, mushy nonsense, but it was sacred to Ella Wilcox's enfeebled heart and mind, and it is rather tragic, very pathetic, that it should all be exploited to belittle her memory—and in the guise of "dear friendship," at that. If it is friendly, ye gods, what could an enemy do?

There is something very naive about Myriam French, which time the word would refer to, when she writes artlessly, and again "I would lift at the only heard with her title, her company were packing and she would earnestly ask the board, "Shall I take this or that garment?" And presumably Mr. Robert Wilcox may say for Myriam behind him to pack those trunks most carefully and to tell his wife that "only black was being worn in Paris."

Well, I have played with a naïf board myself and it is easy to get right messages if you are an interested party. Knowing little top, one boards!

Mrs. Asquith at least gave us an entertaining variety of silly gossip and snippets profoundly about a large and diverse category of wretched victims; but Myriam French concentrates on poor Ella Wheeler Wilcox through many pearly, rapid chapters of sloppy bluntness, always, like Mrs. Asquith, explaining what a remarkable person she herself is. It was nice of Robert to tell Ella how wonderful her medium was, as otherwise Ella might not have discovered it for herself.

There doesn't seem any way to prevent this sort of social exploitation, so long as it keeps outside of actual libel, and even then "dead men tell no tales." Unfortunately it is one of those things that depend upon good taste, personal principle and loyalty, individual codes of honor and friendship and other vital but intangible things. And as long as "ladies" are the chief actors the effective tar-and-feather remedy is unlikely to be invoked.

The more distinguished we become the greater and more profitable become our intimate sillinesses. When I was a small girl my own poetic effusions ran to epigrams and I decided upon for myself still holds good: "Oh, bury me deep and let me rest. With pale sweet violets on my breast."

The Court Advancing.  
"Talk is cheap," snarled the attorney when the judge had criticized his method of cross-examining. "I use you \$50 for constant of court," replied the honor. "What do you think of the price of talk now?" (Boston Transcript.)

## NEW YORK STOCK EXCHANGE

(BY A. P. NIGHT WIRE)

NEW YORK, Dec. 28.—Reduced to its chief essentials, trading on the stock exchange today was characterized by the most part the retrograde movement of the last two months, several special issues falling to new low records for the year.  
Developments in their direct relation to values were mainly unfavorable, when not distinctly discouraging. These ranged from additional dividend suspensions or reductions to further cutting of working forces on the railroads and at steel centers, a forthcoming drastic "readjustment" in the motion picture industry, and more bank failures in the Northwest.  
Local industrial conditions were unsettled by threats of another hard strike, beginning with the new year and rumors affecting the financial status of the more important utilities were again actively circulated.  
Passing of the dividend on Anaconda copper, after an unbroken record of sixteen years, was associated with prevailing conditions in that industry. The course of other stocks seemed to foreshadow similar action in the near future. Rails were the only shares to manifest firmness, a few of the more representative transportation, especially coalers, transients and Grangers being again responsive to better November earnings, where substantial net gains were the rule.  
At the irregular to heavy close, losses of one to six and one-half points in Utah, Pan-American Petroleum, Chandler, Atlantic Gulf, Replique, Crucible, Reading, Southern Railway, Union Pacific, Rockwell and Pacific Oil. Sales amounted to \$750,000 shares.  
Decided improvement was shown by the active bond market, especially in railroad convertible issues. Liberalization of the more important part. Total sales, par value, \$29,500,000. Old United States bonds were unchanged on call.

## National Security Oil Co.

You can share in every

oil well drilled on our

2510

Acres!

Our enormous lease of 2510 acres in Fremont

Valley, Kern County, is capable of supporting

a great number of oil wells. This property is

located in the heart of the oil field, and is

underlain by a rich streak of oil 3 miles

long. Imagine what possibilities there are of

big production. In Kern County, which produces

approximately ONE-HALF of California's total

oil output, 4,962,400 barrels a month.

The National Security Oil Company has in

addition to this enormous acreage, 500 acres in

the Orange County Park Field. This lease alone

provides room for at least 10 big wells. Well No. 1

is being drilled with great rapidity and a depth of over

600 feet has been reached. This acreage lies on

the continuation of the anticline which supports

the Montebello, Richfield and Fullerton oil fields,

and we look for a big producing field.

This Issue Will Be Over-subscribed!

The limited number of shares at 75¢ is not

sufficient to meet the demand. In the previous

issues, WHICH WERE OVER-SUBSCRIBED, investors

simply could not get their stock at the last minute.

We advise you to investigate at once. Tear out

the coupon and mail it without delay.

## Supervisors to Pay for Survey for Great Dam.

The Board of Supervisors Monday

adopted a resolution authorizing

the building of the San Gabriel

dam. The county will furnish the

funds for making a survey and the

preliminary investigation as to the

cost and location.

In a communication from the San

Gabriel Valley Chamber of Com-

merce, yesterday, the Supervisors

were requested to pay for a survey

of the proposed location to deter-

mine whether the feasibility of

building a great impounding dam

which would hold back the water

from the winter rains, but to deter-

mine also the cost and character of

construction.

It is believed that with the proper

support, this dam can be built from

appropriations of the Federal gov-

ernment, provided the Supervisors

find the location a suitable one.

It is estimated that the dam would

cost \$10,000,000, and is under-

stood that Maj. A. P. Davis, chief

engineer of the Reclamation Serv-

ice, has visited the site, and has in

a tentative way, given his approval

of the enterprise.

Noted Chemist Succumbs Here; Nearly Eighty.

After an illness of several months,

Dr. Leon H. Hurt, 78 years of age,

died at his home early Monday

morning. Death was due to a com-

plication of diseases, resulting from

stroke of apoplexy, which he suf-

fered last March. The funeral ser-

vice will be held at 10 a. m. to-

morrow, at Forest Lawn cemetery, un-

der the auspices of the Glendale

lodge of Elks.

# "—for a long life and a happy one"

Get these water facts fixt firmly in your mind.

They are essential—yes, vital to your health and happiness.

The man or woman who neglects the importance of the drinking water used in their homes and offices are guilty of a crime against humanity. By neglecting to use all possible precaution against ill health and disease they help to weaken their own health and the health of the nation.

There is absolutely no excuse today for the person who pleads ignorance of Nature's Laws—who seeks to combat the destructive elements without taking the proper precautions.

Your body demands the greatest care and protection you can give it. Don't tempt fate by filling your system with any sort of drinking water. Exercise the same care and precaution in the selection of drinking water that you would in the selection of milk for your table. Science has proved that there are just as many different grades of drinking water as there are different grades of milk.

Let purity be your guide in the selection of your drinking water. Know the standards of purity acceptable to science and you will then choose wisely and unerringly.

## Puritas Distilled Water

will be your choice because it meets all of the standards of purity. Mineral free and purged of all impurities in a scientifically correct manner—Distilled Water is the purest water known to man.

Bottled, sealed and capped in a modern plant, under the scientifically sanitary precautions that insure the greatest protection—Puritas Distilled Water is a real improvement on the haphazard methods of nature.

## EXTRA! SUDOW CONFESSES!

But It's the Wrong Sudow and the Police Chase Jokester for Nothing.

"I did it! I did it! Me for the wild woods of Mexico tonight!" These words, typewritten at the top of a clipping from The Times telling of the identification of the Edendale murder victim as Mrs. Fay Sudow, yesterday caused a hurried investigation by local officers of Ferdinand J. Sudow, 1024 West Twenty-fourth street, following information from Poughkeepsie, N. Y., that Mr. Sudow had sent the message.

A long dispatch to The Times from the eastern city last night, described the receipt of what appeared to be a confession on the part of a man named Sudow of the murder. This was sent to a prominent resident of Poughkeepsie, who turned it over to the police, with the statement that he could not sleep at night until he had done so. An additional complication arose, when a letter from Mrs. Sudow arrived there on Christmas Day and the Poughkeepsie police were about to notify the Los Angeles authorities that the murdered woman was still alive when the extraordinary confusion of names was cleared up.

"Ha! Ha! It was only one of my little jokes," said Ferdinand Sudow last night, when advised that The Times had learned from Poughkeepsie, of his message.

"The police were here today to take me to police headquarters," he said, "but when I told them I was just playing a joke on my old mail carrier back in Poughkeepsie, they didn't take me. Mrs. Fay Sudow was 42 years old, and so is my wife. Her name was Helen and so is my wife, so I doctored up the clipping to make it look like it was my wife

that was killed, and then sent the letter. I played another joke on the chief of police there once before, and this was just a reminder."

Chief of Police Charles J. McCabe, at Poughkeepsie, learned of the "confession," notified the local police and awaited developments. In a few days a postcard came from Mr. Sudow to the mail carrier, telling him to pay no attention to the first message, that it was a joke. Two letters from Mrs. Sudow after the date of Mrs. Fay Sudow's murder also were received in Poughkeepsie, further deepening the mystery to the officials there. Bernard Sudow never lived in Poughkeepsie, so far as known.

Ferdinand Sudow last night explained that he is no relation to Bernard Sudow, husband of the slain woman. He further said that his name formerly was Sudendorfer and that he came from Germany in 1881, entered newspaper work, found that Frenchmen gave him the cold shoulder when he presented his card and finally changed his name. "So you can't tell whether I'm English, German, French or what," his wife wrote the two letters.

The Union Bank and Trust Company was appointed guardian yesterday of the estate of Miss Lucille Sudow, the 16-year-old daughter of the murdered Mrs. Fay Sudow. Miss Sudow was accompanied to court by her father, Bernard Sudow. She was represented at the hearing before Judge Rives of the Probate Court, by Attorney Oscar Lawler.

Under her mother's will, Miss Sudow is the heir of her \$150,000 estate. The appointment of a guardian was necessary to look after the property and rentals of the bungalows courts Mrs. Sudow owned.

Hillman Charge

BOSTON, Dec. 29.—Ch

representative of the  
manufacturers in New York  
approached Sidney Hillman,  
one of the American  
Workers of America, a  
man with a proposal for  
the industry.

Some disclosed in the build  
ing in New York, were  
members of the organiza  
Mr. Hillman said the  
called for a reduction in  
costs which would form a  
mortgage and make it po  
the manufacturers to blac  
to the limit.

We selected their plans  
and later when meeting  
Chicago, Baltimore and  
arrived to join them, the  
managers.

The clothing industry  
acted by the association  
that took place in 1919  
Hillman said, "I have  
that individual manufac  
the fact and come to  
willing to be honest with  
people and themselves."
